about

Growing up, I always loved to take photographs. I took as many photographs as I was allowed to as to not waste film. I became the photo editor of the yearbook in high school which opened me up to the realization that photography could actually be a career of mine.

I pursued a Bachelor of Arts degree in photography at the Art Institute of Colorado. While in school, I thought I might like to be an editorial photographer or work in the field of advertising. But, it was when I interned with a wedding photographer that I found my calling.

Photographing weddings gives me the opportunity to use my knowledge in all areas of photography which I LOVE! I approach details the way I learned to photograph products in advertising.

I photograph the first dance the way I learned to photograph a decisive moment in photojournalism classes. I get to use my knowledge from classes in lighting, architecture, and even fashion photography! But the absolute best part of photographing weddings is getting to be with and document my clients on one of the most important days of their lives. Being a part of your happiest moments is so rewarding and is why I never grow tired of photographing a wedding day. I look forward to each one!

Kendall graduated from the Art Institute of Colorado in 2006 with a Bachelor of Arts degree in photography. Immediately upon graduation, she opened Kendall Price Photography and has been photographing weddings for 13 years.

Kendall's work has been published in the Knot, RENO Magazine, Where to Retire Magazine, OneWed's Savvy Scoop, On the Go Bride, Engaged Now What, Belly Itch, Borrowed and Blue, Heart Love Weddings, WedLoft, Trendy Bride, Two Bright Lights, Planning It All, and Tahoe Unveiled.

She has won many awards including Couples Choice Award from Wedding Wire and Best Visual Artist from Reno News and Review.
