Bride To-Do List

- Contact the salon as soon as you have your wedding date. This will ensure that you get your choice of salon as well as your choice of stylist.
- Make reservations for the entire bridal party. You will want to make sure the salon can accommodate your needs.
- Check out special packages for brides. Many times salons offer special deals when you book your wedding services together.
- Don't forget about the groom. The groom and his attendants may also want to book services such as a haircut, style, or massage.
- Plan for the honeymoon, too. Keep in mind that if you plan on going somewhere warm for your honeymoon, you may want to get a spray tan and have a 2-week manicure or spa pedicure before you leave.
- Have fun and enjoy your day. Because you have done all the work beforehand, you can arrive at the salon and start the celebration.
