Best Wishes and Congratulations!

When you look back at your wedding, you don't want to see it from a shaky hand held camera. Your special day has many decisions & video is unfortunately many times forgotten. A once in a lifetime day should be professionally captured and the video will be the lasting memory shared for generations. For the past three years we have been voted by brides & awarded 'The Best of the Bliss' in the Videography category in the Wedded Bliss and we have been involved with wedding films for more than 15 years.

Our promise: When you book A Thousand Word Productions, you are not just booking a wedding videographer service. You are booking a company that will take your most memorable day and document it for you to show your family and your friends for years to come. Your special day is taken and edited on for more than 40 hours to make sure your product is absolutely perfect. You are not getting a 10 minute highlight video. You are getting your full wedding ceremony, pre ceremony, reception, and a highlight video that will continue to bring tears to your eyes year after year.

Below are some tips on selecting our company for your day and thank you for your interest in our wedding videography service!
