# WEDDINGS

# WELCOME!

*Congrats, lovebirds!*

You've found the love of your life.

Welcome to the exhilarating rush of wedding decisions: the dress, tux, flowers, cake, guest list, and decorations. The list goes on – but what really lasts when your big day has come and gone?

Your photos of the day you joined your lives together, your rings, and your timeless love.

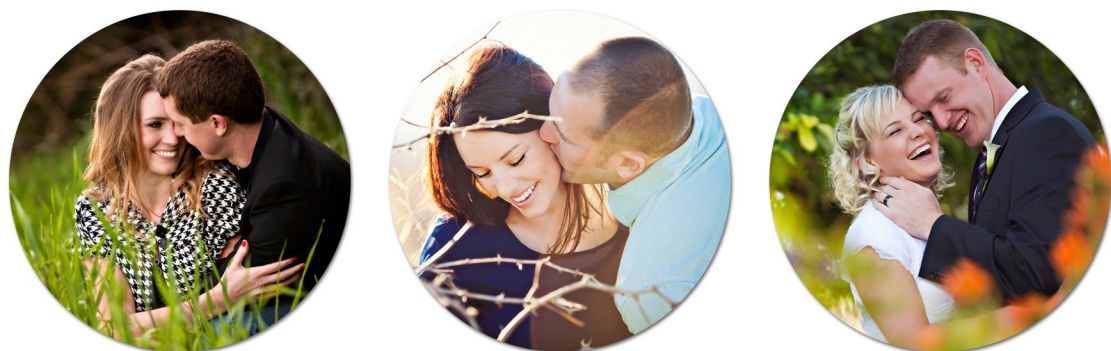

This is where I come into the picture.

Some say all you need is love, and my goal is for you to LOVE your wedding pictures. By artfully capturing special moments, I'll deliver photos you and your sweetheart will cherish forever.

*Be prepared to fall  
in love all over again.*

## Your Pictures, Your style!

You're king and queen of the day. Here's your royal photography treatment.

As a couple, you have a unique personality and photography style. Some go for fun, free, and outgoing, while others prefer sexy and serious. Your photography will be as unique and wonderful as you are. On your big day, I shoot an artful blend of classic portraits and candid shots. I help capture your sweet moments – clasped hands, loving looks, and stolen kisses – saving your excited butterfly feeling for years to come.

My wedding gift to you: Less stress! Before we take any pictures, brides often share their Pinterest boards with me. We discuss details, giving me a feel for the wedding day and style preferences. If needed, I'm happy to offer consultation on all things photography – everything from the best location for shooting engagements to fun bridal party poses. I creatively plan each and every shoot beforehand and always come prepared. (You have enough to worry about with wedding planning, right?)

Expect your pictures to be professional, crisp, and full of love.

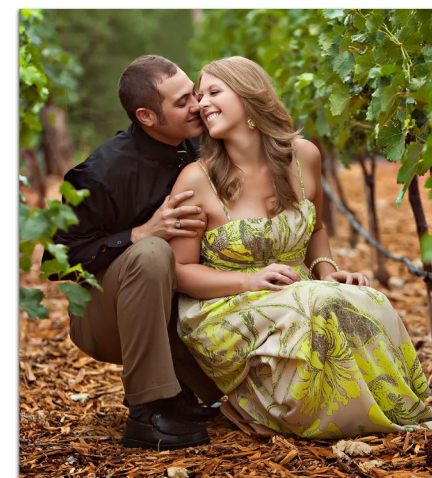

## Prompting The fun

*Bring real laughs and genuine smiles into focus.*

Smile! If you're not having fun, I'm not doing my job. After all, you look your best when you feel happy and relaxed. I understand "acting natural" in front of a camera can be intimidating. No worries – my photography style is all about helping couples feel relaxed. I give direction and prompt for natural, flattering poses. I love to capture the love connection through a series of candid and posed photos. So if I tell you to turn, kick up your hip and lean to me, it may feel a little weird for a second but trust you'll look HOT in the pictures.

Rest assured, your family and friends will enjoy working with me too. I've had fathers of the bride who dread photography say, "That was the easiest photo shoot I've ever had." I'm known for getting little boys to smile by making monkey noises. (Eee, Eee!) Whatever it takes, I'm willing to make a fool of myself for the sake of your photos.

# RADIANT NATURAL LIGHT

*You are my sunshine.*

I use natural lighting to create a soft, romantic tone. Scenic, urban, rustic, or rural – I’m always on a treasure hunt to catch the right light. As a professional photographer, I’m an expert at catching rays of backlit sunshine, soft window light, and the vibrant colors of the Arizona sunset to make your photo a wistful work of art.

# STUNNING STUDIO LIGHT

*Bright and bold – keep shining on.*

You will rarely see me without an assistant hauling my lighting equipment around! It takes training and experience to work with lighting equipment, to perfect exposures and know how to light my clients in the most flattering and beautiful way.

It defines my style of vibrant, sharp, clean, and crisp photography. This expertise sets me apart from lots of other wedding photographers and gives you the BEST picture quality possible. On location, I prefer an off camera light source, either reflector or Off-Camera Flash (OCF). No worries about bad weather: With off camera lighting, I create my own light wherever we go. Bright noon day sun or dark lit reception lighting, be at ease knowing bad lighting will never be an issue.

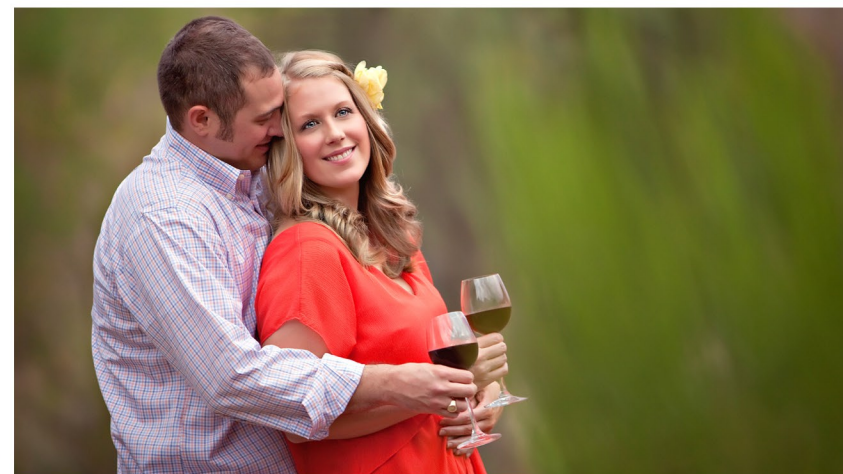

# Engagement Sessions

*Reflect what's uniquely you.*

Your engagement pictures say a lot about you – and every couple has an interesting story to tell. Where was your first date? First kiss? What do you like doing together?

When I learn more about you, I come up with creative locations and fun interactions that are unique to you and your significant other. Maybe you're all about Friday night at the movies? Then let's do a shoot in front of an old theater, with you throwing popcorn at each other. Or maybe you love taking your dog on walks at the park? Let's capture all three of you on the playground. Feel free to change outfits two or three times, and we'll shoot exactly what you're looking for.

10 Reasons why to get Bridals/Groomals done BEFORE the wedding day.

- 1. Give yourself a stress-free wedding day. You never know what will happen on your wedding day. Don't worry about spills on the dress, being behind schedule, or anything else. Have peace of mind knowing you already have beautiful pictures.
- 2. Go for your dream location! Find the perfect place for you and your fiancé – where you've always imagined. Desert scene? Sedona red rock? Aquarium? Let's shoot it!
- 3. Find the best lighting possible. Since the wedding day is full and rushed, you don't always get to choose the best time to take photos as far as lighting goes. Doing bridals beforehand gives us the option to choose the best time of day for the prettiest lighting out there!
- 4. Test your hair and makeup. Give your look a dress rehearsal, so you know you've got the right colors and style for you.
- 5. Get to know your photographer beforehand. I love to shoot before the big day so we get to know each other better. I can learn your best angles, what makes you laugh, and you get a feel for my shooting style. We'll all feel more comfortable on your wedding day.

- 6. Take your sweet time. You'll get at least a two hour shoot with me beforehand, when most wedding shoots only last 30 – 60 minutes.
- 7. Have more pictures to choose from. The most important pictures of any wedding are the bride and groom. A second shoot ensures you'll have a wide variety and many more photos! Who doesn't want more photos?!
- 8. Find privacy. Smooch away! Plus, while it's exciting to have dozens of people who want to congratulate you, a pre-day shoot lets us focus on YOU and one of the happiest moments you'll ever have!
- 9. Enjoy a fun date! Many brides and grooms have a blast together, and it's a special bonding time before sealing the deal.
- 10. Share your bridals and groomals on your wedding day. Getting photos beforehand lets you display your gorgeous pictures at your reception.

# Bridals and Groomals

*So happy it hurts.*

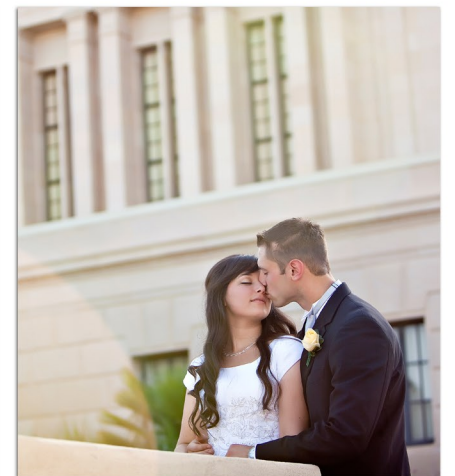

# Retouching

*Making beautiful even better.*

After your wedding day, I retouch each and every picture. What does this mean? By digitally enhancing, I make colors pop, soften skin, remove blemishes, and whiten teeth. I also convert images into classic black and white. Every photo is edited to stand alone, as a high quality piece of art.

I am very particular about prints and maintain a high standard of quality for all my clients. Your images will be vibrant, sharp, and the highest quality. I edit your photos to be timeless, not the latest fad.. In 10 years, you'll still look fabulous – and your photos will not be dated by a trendy filter. Printed at a professional lab, the image quality is maintained and not distorted by labs like Costco or Shutterfly.

# THE INVESTMENT

PACKAGES, PRINTS AND PRODUCTS

## First Collection \$2500

- 2nd Photographer

Wedding Coverage – 6 hours

High Resolution Disc of Wedding day Photos
- 11x14 mounted Print

Approx. 600+ Final Wedding Day images

# The Forever Album

Most wedding packages come with a gorgeous leather album of your engagement, bridal, and wedding day images to tell your love story like no one else can.

Of course, you choose your must-have images for the album, and I will fill in the rest for a seamless and artistic display.

All designs are custom, so no two albums are alike!  
You customize your design, size, colors, and cover.

You get one round of revisions to change anything you want. This professionally printed piece is something you'll love (and want to show off!) forever.

# Meet Selena

Photography is my passion. I love what I do! I love making people feel beautiful. I love freeze-framing family bonds in a photograph. I love seeing a couple's happy bliss on their wedding day. I love catching them kissing and cuddling when no one else is looking. I love creating art that inspires people and makes moms cry.

My name is Selena and I am a photographer.

Since I was young, I've had a love affair with photography. My grandfather was a photographer and passed it down in the family genes. Every time I get my camera in my hand, I feel motivated to use my talents to bring joy to others. With a bachelor's degree in photography and seven years' professional experience, I've been trained to do more than merely snap shots, but artfully capture dreams come true. My clients always become my greatest friends and making others happy through photography brings me so much joy. I love my job!

I enjoy lots of other things in my free time. I can't live without my chapstick or flip-flops, and am in love with antiquing! Born and raised in Arizona, I am a mommy, a wife, photographer, border collie owner, thunderstorm lover, speed demon, and a cookie monster. I love to be lazy with my hubby and watch our "shows" and can't stop filming my daughter and her newest dance moves. I take way too many pictures of my girls – yes, I am obsessed! Sweatpants are my best friend on slow days and I love the Arizona sun. I am known for my awesome elephant noises and goofy dance moves. My husband knows I have no shame and do not embarrass easily. He is my support, photography assistant, business consultant, and I couldn't do this without him.
