PHOTO BOOTH DETAILS

HOW IT WORKS

Sofia's Photo Booth Rental all about having fun. Grab some friends, hop in the booth and just be goofy! Once inside, guests see themselves live on the touch screen monitor. Pressing the start button begins the countdown to the first photo. After four photos, guests get their prints in under 15 seconds. They are professional quality, water-proof prints that look great and last forever.

SET UP

When you rent a photo booth from Sofia's Photo Booth, we show up an hour early to set up and get ready. A friendly attendant will remain with the booth, checking the equipment and making sure everything works flawlessly.

ABOUT OUR BOOTH

We put our focus on equipment. Our DSLR camera and large lighting soft box ensure great photos at every event. Our dye sublimation printer delivers instant drying, smudge free prints in under 15 seconds.

LIGHTS

Good lighting is the first step to great photos. Our portrait studio lighting delivers quality photos every time.

CAMERA

Our booth is equipped with a DSLR Camera. This means that your photos and any reprints, even at larger sizes, will be high quality.

ACTION!

With a single press of the button the countdown begins.

PRINTS

We use a dye sublimation printer. Fancy words to say that this is the same type of printer that big box photography studios and one-hour printing services use. Our photos are printed in under 15 seconds. They are instant drying, smudge free, waterproof and will last for years if not decades to come.

BOOTH DIMENSIONS

The booth is 5ft wide by 5ft long and 6ft tall tent. You can squeeze a group of people (from 1 to 8 people) into one photo. Ideal for all types big and small parties.

If you have any questions we will be happy to answer them. Helpful details include your event day, time, and the type of Photo Booth you are looking for.

Want something that isn't listed? Just ask and if it is possible, we will make it happen.
