## Meet Amanda

I found my love of photography in high school. I discovered the amazing feeling of capturing a memory on film. I love the challenge of having that image tell the story of a thousand other moments. Photographing proposals and weddings is such a privilege to be able to immortalize such love, and I will work hard to make sure your shots are as unique and beautiful as you.

Over 20 years of photography experience and schooling will ensure that you get the most amazing photographs of your most amazing day. From developing my own digital editing, to artistic expression, my knowledge encompasses every aspect of photography.

## **Our Mission**

We strive for excellence in every photograph; to tell a story in every frame that is artistic, modern, and unique. Our experience with San Diego and its wonderful natural settings along with our first-hand knowledge of popular venues will ensure the perfect angle at the perfect time to capture the perfect memory.

The first kiss, the first dance; the first joyful tear or the first "I do." We treasure every opportunity as the chance to take the most important photograph we have ever taken—because it is. Let our experienced eye help tell the amazing story of your day in photograph so you can share it with the world.

We would love to meet with you to discuss the details of your wedding day. We are located in central San Diego, and we are available for day and evening appointments.
