ADRIENNE & AMBER

PHOTOGRAPHY

Hi! We are Adrienne & Amber, the girls behind the lens and we would love to be your boudoir photographers! We met in college at College for Creative Studies while studying to earn our bachelor's degree, but have enjoyed photography for as long as we can remember. We love finding beauty and want nothing more than to create art with our subjects.

Inspired by the sound of the ocean, and the beauty of the open land, we've always tried to fill our images with that mood. We strive to create real, authentic moments that capture the unique beauty and romance in our sessions.

We strive for our images to be a blend of art and photojournalism, candid yet timeless, and above all look natural. We honestly love photographing boudoir sessions!

We're always looking at the beauty of body shapes and form, or even how we can include movement in a photo or two. We are spontaneous and come up with every pose, so you don't need to come with ideas. We will pose you to make you look and feel your best. A boudoir session is a celebration of you so let's have some fun taking photos!

We are here to help with outfit inspiration, feel free to send us pictures of your ideas! We suggest bringing accessories, body jewelry, layering item or a pair of shoes. If you're going for a bridal boudoir look, an all white outfit looks best along with bringing your veil.
