- great for parent albums or gifts.

## Description of Services

### WEDDING DAY COVERAGE

Ideally, we begin wedding day coverage about an hour before the bride puts her dress on. Jason meets up with the men and documents their getting ready process (whatever that may be), while Sara photographs the make up and hair finishes, as well as the dress and other bridal details. We are there to capture genuine moments as they naturally happen, and for the majority of the day we are very hands off.

During portraits, it's a little different. We give subtle direction, working to bring creative ideas to your natural interaction and create images that are unique and truly representative of your personalities.

Our goal is to be able to give you back your wedding day better than you remember it.

If that excites you, we will be a perfect fit.

### ENGAGEMENT SESSIONS

This is a great way for us to all get to know each other. Our goal is to have a fun time while creating the most incredible images we can for you. Don't be afraid to bring your personalities into these shoots through locations, pets or activities you love

Sessions are 1-2 hours and can be booked on weekdays. We like to start about 2 hours before sunset for the best light.

### ONLINE GALLERY HOSTING

A quick and easy way to not only download your images in full resolution, but share them with anyone you'd like.

Your online gallery will be the first place you receive your final images. The easy-to-navigate interface will allow you to relive your memories as often as you want, and conveniently share them with those important to you. You will also be able to order affordable, professional prints through this gallery. Your online gallery will be hosted a minimum of one year.
