

Pricing

Every bride's needs are different and therefore giving a specific price is near impossible without a consultation, but I like to have a guideline so you know whether or not it's within your budget. If I'm needed to travel longer than one hour away, then a hotel accommodation would be required and is NOT included in the following prices. Additionally, there is a mileage cost per mile from Londonderry, NH.

All consultations are done over the phone, via e-mail, or video chat to determine hair length and desired look. I welcome photos of desired hair and makeup styles but please note the exact outcome may not be possible due to hair texture, length or other variables.
