

You know those companies that make you come to their house or studio or some random coffee shop just to find out their prices? Well that's not our style.

Here's our three package options explained in simple terms. And regardless which one best fits your vision and budget **the deposit is only \$500**, and the entire remaining balance is paid after the wedding when your video is finished.

Your deliverables will be ready no more than two weeks after the wedding, which is the fastest guaranteed turnaround time in the area. And if you need more than our standard nine hours of coverage you can easily add time at a rate of \$300 per hour. Have an idea in mind for a custom package? Just reach out and we'll talk it through!

Like we said, super simple. Sorry those seating charts won't be as easy :)
