Paula Jo Yaconetta

As an independent artist, I stick to the things that are meaningful and make my heart skip a beat when looked at over and over again. Photography has always been what I wanted to do with my life from age 14. Although I have a degree in photography, it is the teachings and life lessons learned along the way that inspire me the most. I continue to learn and evolve. Each step is reflected in my work. My goal is to present my unique vision employing both traditional and innovative photographic technique and methods. In 2001, I formed Natural Light Images in Steamboat Springs, CO. It has been a true blessing.

"if you do what you love you never have to work a day in your life"
