

Our Custom Boutique

The process is easier than you think!

You let us know what you're interested in ordering, we give an estimate of cost, then you work with our designer on your custom invitation suite until it's perfect and all ready for print!

If you'd would like more details, below is a step-by-step description.

Submit Your Initial Request

1 The first step to designing your custom invitation is filling out the form on Our Custom Boutique page. It helps looking at the links located at the bottom of our main image. You can download our basic pricing, invitation styles and inks, colors & fonts PDF's. Your designer will then contact you within 24 business hours.

Getting on the Same Page

2 Christy will set up a time to either chat or meet with you to go over your request. This is the time to dish out the fun little details regarding wedding colors, style and sharing any inspiration you have found to help understand your vision (Oh Pinterest, what would we do without you!)

Estimate

3 We will send you a rough estimate based off the details from your consultation to give you a break down of each item. This will include cost of invitations, mailing envelopes, embellishments and your custom design fee.

Send in Design Fee

4 Once you decide to move forward with your custom invitations, your Custom Design Fee is required in order to begin the process. This is accepted via check made out to: The Paper Vow

Mock-Ups

5 Once the Custom Design Fee is received, we will send you a word document to help organize details of your invitation suite including wording for the main invite, hotel information, etc. Once we receive back the document, we will begin on your electronic mock-ups and tweak until they are completely perfect!

Approve and Print!

6 When we receive your blessing on the electronic mock-up of your invitation set, we highly recommend ordering a physical sample. This is a great time to see how everything coordinates and if you have any last minute changes. If everything is good to go, we will then move to your full order which takes about 2-3 weeks.

Your custom design fee is non-refundable.

If you cancel your order, there may be an additional cancellation fee depending on how far along your order is.
