

SIDEONE RATE SHEET 2015 / VANCOUVER

DANCE BAND

pricing is for 3 hours of dance music, within a 4 hour call time. We recommend two sets of 1.5 hours with a 30 min break between – the extra half hour is a buffer in case things run late so we start and finish later than planned. Overtime sets are possible, contact us for a quote.

Regardless what size band you choose, we guarantee your guests will be raving about the band long after your event!

FULL BAND (TEN PIECE)

\$5150.00

Guitar, keys, bass, drums, male & female lead vocals, saxophone, trumpet, and two back ground singers. This is the ultimate show band for maximum rocking!

EIGHT PIECE

\$4300.00

Guitar, keys, bass, drums, male & female lead vocals, saxophone, trumpet. A couple less bodies on stage but still a rocking band. In the absence of the background singers, the guitarist and bassist take over singing the essential background vocals.

SIX PIECE

\$3500.00

Guitar, keys, bass, drums, male & female lead vocals. With the horns removed, the keys player takes over the horn parts. This is most compact version of the band and it's still a complete barn burner.

PRODUCTION

Sound system, lighting, sound technician.

What is production? It means the rental (including delivery, set up, operation, and tear down) of the sound gear (such as mics, cables, stands, monitors, speakers, mixer etc) as well as basic lighting for the band, and a sound technician who manages the audio throughout the performance. This is required for almost all performances, though we keep the cost separated as there are some specific instances, though rare, in which your venue may be able to provide production for you, if it's a theatre or performance space for example, such as the Commodore Ballroom in Vancouver, or if you have multiple acts performing at your event and have hired a production company to manage the whole function. We break down the cost by size of event (number of guests) as this will determine the size of the sound system we need (number of speakers and subs etc). Pricing as noted below is subject to variation depending on your venue. Contact us for details!

Up to 250 guests: \$1050.00 | 250-500 guests: \$1450.00 | 500-1000 guests: \$1850.00

SECONDARY SOUND SYSTEM

\$100

Speakers & mics as needed. If you need your officiant to have a microphone, or if you need a mic somewhere other than where the band is playing, for example if there are to be some speeches during cocktail hour elsewhere, or you need speakers for an ipod to play music elsewhere and so on, we can provide a secondary sound system to suit your needs. This cost is for a basic PA with 2 speakers, pricing may vary depending on the details of your event and venue.

NOTE: You can use our main sound system at no charge to play music via your ipod during dinner, of course let us know in advance so we can ensure we leave it all set up and ready for you to plug and play. You should definitely assign someone to be in charge of the ipod/music in this case, or opt for our Audio Management which is detailed below.

\$150.00

We would go over all cues etc in our consultation to be sure we know everything that is going on.
