

KYLE VANDEVER PRODUCTIONS

At Kyle Vandever Productions, I firmly believe that every couple is unique and strive to create a wedding film as unique as each couple. To do this, I threw out traditional wedding package pricing and created a menu style that allows each couple to customize their film to fit their story best.

"I DO" Cinematic Highlight Film:

This is the main film for most weddings. The length is perfect because it's long enough to include the entire story of the day but short enough to captivate anyone. Couples also love sharing this video with family and friends on social media and it's cinematic style allows you to relive some of the most special moments from your big day.

INCLUDES

- 5-7 Min Film
- 2 Cinematographers
- All-Day Coverage
- Full-Length Ceremony/Speeches

\$1400

"Save the Date" Interview:

This is a great option for couples who are looking for a fun way to send out "Save the Date" invitations or to post their wedding announcement on social media. This 3-4 minute video allows the couple to tell their own version of how they met and really show the personality of their relationship.

INCLUDES

- 3-4 minute fully-edited video
- Interview in Scenic Area

"The Proposal " Video

Guys! Here's you chance to capture one of the most memorable moments in both of your lives. With careful planning and coordination, you'll be able to share the moment she said "YES". This 2-3 minute video will showcase the nerves leading up to the proposal, and excitement afterwards.

INTERESTED?

The next step would be setting up a consultation. As a filmmaker, it's my job to tell a story and in this case, it's YOUR story. To do this, I need to get to know both of you a little better. Like, how you met, who's the better driver, and all the other fun questions. This also allows you to get to know me a little better.

So, lets get the ball rolling. Feel free to contact me via email, text, or if you're old school, you could just give me a call. I look forward to hearing from you.
