Your USB Drive

Joice Ruffing Photography only offers high quality products! Your USB drive is not just a "USB Drive", it's a jewel and it's presented to you in this elegant jewelry box.

Custom Wedding Album

A luxurious wedding album, featuring full-grain leather covers and a hard substrate between pages (thick, sturdy pages with a rich quality).

Weighty and resistant to damage. The pages lay beautifully flat, so you don't lose any of the image in an unsightly fold. Each spread can be presented in all of its glory due to its modern binding and block-building processes.

All of the spreads are built with a micro-fold, preserving the full impact of your design.

This amazing wedding album use only 100% natural leathers selected for their grains, texture, strength, and quality. Full-grain hides feel better, last longer, and are more attractive than fake, bonded-leather covers.

YOUR FAMILY INHERITANCE
