Lay Flat Photo Book

Introducing the Elegant, High-Ended Photo Book with hard lay flat pages. Lay Flat Books are very similar to the popular Flush Mount Albums, but the pages are thinner and lighter in weight, which allow more pages. No bulging, no gutter, with thick, non-curling photo paper. These books come with rich high density natural colors via professional lab photo printing.

Why Our Photo Books Are The Best:

Regular press photo books are low-end photo books that are mass produced using inkjet printers and stock papers.

These albums differed from regular photo books by being hand mounted on thick inner substrate with real silver halide photo paper.

Lay Flat albums differ from regular photo books in having a stronger, tighter, finer, superior core.

Press printed books are like magazines. Lay Flat Albums are built with rigid, thick, non-curling pages

Standard press pages bend out of shape with each opening.

Lay Flat albums are rigid and meant for rigorous use.

Standard press paper absorbs stains. Our Lay Flat Albums have coating that protects against spills and stains.

Photo Book Cover Options
