

We would be honored to help capture your big day! All of our images are professionally edited. Everything will be included in an online album for at least three months and will be able to be downloaded at any point. You can also order your photos via our online store. Each package will provide 300-1000+ photos at least. Our turnaround time for editing photos is anywhere from 1-3 months, again depending on the amount of photos captured.

We also offer a second photographer for all wedding bundles with no extra charge as long as we aren't contracting out to another photographer. We will have already made you aware of this by now though.

These are our prices. We do require a retainer fee. The fee would be deducted from the package total. For example our standard package is 1800\$ Total. 600\$ would be due for the retainer fee (once the retainer is paid we save your date) and 1200\$ would be due the day before your wedding to avoid any late fees. You will receive three emails. One is the contract, The second is an invoice for the retainer due within two weeks of booking us and the third is the remaining balance due the day before your wedding.

*****Payment plans*** We do offer a payment plan. If you need we can offer a retainer payment of 300\$ and then 100\$ every month after leading up to your wedding day. The month of your wedding the final balance that is remaining would need to be paid in full by the day before your wedding date is.**
