HOW WE ROLL

Your wedding is going to be the second best thing two people can do together! Our goal is not only to create images that are unique, interesting, and worthy in their own form, but to document a story. We want to play a subtle roll, somewhere in the background of the wedding day. So that when you think back on your day, you won't remember us as the vendor you hired to take pictures of stuff and things. But as friends who quietly, or sometimes not so quietly, celebrated you and your spouse's union. Capturing moments throughout the day. Moments you were in the middle of, and moments you never even saw. So that you can look back on them, days, months, and many years later and be reminded of what that day was.

COVERAGE

Every wedding is beautifully different, so we offer three collections to start. Each collection includes an online proofing gallery and slideshow to share with friends + family and a disc of all your high-resolution digital files. To book us for your date all you have to do is snail mail us your contract and a \$500 deposit. The deposit is attributed to the final balance which is due 30 days before, "I do!" and that is that.

TRAVEL

We travel anywhere for love, adventure, and storytelling. Let's keep it simple. Getting married in Austin, DFW, the Hill Country, Midland/Odessa, or Lubbock? Our travel fee for weddings in these neck of the woods is \$300. For the rest of Texas it is \$400.

For out of state nuptials we charge a flat rate of \$800. This covers our travel to anywhere we need to fly in the continental US. Airfare, hotel, car, food... all that. We get there a few days early so our travel time doesn't interrupt your wedding coverage.

For nuptials outside of the US we require flights for two, hotel for two nights, and a rental car if needed. We can compose a travel quote for you.

ENGAGEMENTS \$400

A session where we just hang out, get to know one another, and we take some photos in the process. You guys get a feel for the way we work so when we step in to capture your wedding, we don't have to go through that awkward phase of "I don't know what to do with my hands." Totally worth it just for the experience alone, but you also get an online proofing gallery/slideshow and a disc of high resolution images.

BRIDALS

\$ 400

This might be the most beautiful dress you ever own. Therefore it deserves to be worn at least twice. Bridal sessions are relaxed and come with no time limitations which are stipulations that lend themselves up for amazing photos. Whether you choose to display your bridals at your wedding, or want to save them for personal spaces, we request that you book them at least 6-8 weeks before you need them. This session includes an online proofing gallery/slideshow and a disc of high resolution images with printing rights.

BOUDOIR

\$ 400

The sexiest wedding, birthday, Valentine's, anniversary, or Happy Tuesday gift for your love. Classy, beautiful, and sexy photos of you wearing little bits of clothes or lingerie. This session includes an online proofing gallery/slideshow and a disc of high resolution images with printing rights.

Staying married deserves one.

Anniversaries are special. Not only because they are a milestone, but because it takes a lot of work. Everywhere you look there are people celebrating life. Weight loss, babies, travel... you name it. We think your anniversary, whether it be your 1st, 7th, or 35th, should be celebrated with gusto!

FAQ'S

HOW LONG HAVE YOU BEEN SHOOTING WEDDINGS?

We've been documenting weddings full-time for over 7 years now. We've been a part of over 300 weddings all over the world and, to be honest, it's the biggest honor. We shoot around 50 a year because a party every weekend is how we like to roll!

WHAT USAGE RIGHTS DO I HAVE WITH MY PHOTOS?

Pretty much anything short of selling or licensing them for use without our approval. Feel free to make prints or albums on your own.

IS AN ENGAGEMENT SESSION REALLY NECESSARY?

No, but we wholeheartedly believe that us being up in your business at your engagement session makes you at ease with our presence. We get to know one another better and you end up with some pretty photos of yourselves as well. It's this or a trust fall, because we need your trust in order to do our best work. It's a lot easier to gain when you've been in front of our lenses.

BUT I/MY PARTNER IS REALLY AWKWARD...

We hear this a lot, but we promise by the end you'll be making a career change to modeling. We work in a way that makes you forget what we're doing and focus on each other. That's where the magic happens.

ARE YOU OPEN TO OUR SHOT IDEAS?

Totally. We don't recommend basing your expectations on a Pinterest board. Pinterest is awesome, but using it as a blueprint to your day would be impossible to replicate the exact light/chemistry/etc. However, we'd love to get an idea of what you are into aesthetically so please share them with us.

HOW MANY PHOTOS CAN WE EXPECT TO RECEIVE?

Every wedding is different, but we average between 70-170 images an hour, which is more than a photo a minute. We individually edit every photo that you receive and share them in an online gallery and slideshow. You will also receive a cd/dvd from your wedding day, in addition to all sessions.

WHAT FORMS OF PAYMENT DO YOU ACCEPT?

Cash, check, or plastic payments through PayPal.

WE'RE SO DOWN WITH YOUR STYLE, BUT WE WANT A FEW TRADITIONAL FAMILY PHOTOS. IS THAT SOMETHING YOU DO?

We completely agree that some casually posed photos with your close family and friends on such an important occasion are needed. These are typically taken immediately following the ceremony and the wedding day info sheet you send us will provide us with a list of these groupings.

FIRST SIGHT

WHAT IS A FIRST SIGHT?

A "first sight" refers to the bride and groom seeing each other before the ceremony.

WHY IS THE FIRST SIGHT BENEFICIAL?

After you see one another, all of the stress and anxiety is gone. Replaced with a sense of calm. We don't have to play hide and seek with one or the other until the ceremony, which keeps you from being stuck hiding in some closet on your wedding day. Seeing each other privately you are able to share special moments to remember completely for yourselves. You can say sweet things to one another that being in front of a crowd might not allow. Also, getting the majority of the photos done before the ceremony enables you to get to your party faster. That dance floor isn't going to start itself!

If you are on the fence, let's talk about it! We would never want to dictate your day, but want to do what's best to make your photos **RIDICULOUSLY** awesome.

ALBUMS

We don't just shoot photos, we shoot great loves. All of our albums are custom designed and don't ship until you have approved every nook and cranny. We married them to each of our collections because we believe your photos need to live on past your computer. Albums are the best way to have your story in physical form. 30+ flushmount pages of your day with a leather or canvas finished cover, built to last for generations.
