- Carly

Hello! I'm Carly

My name is Carlisha Magnarella but you can call me Carly -- all my couples do! I have been planning and desining incredible events all over the world, for the past 14 years. It started with a love for weddings at a young age and as I grew, so did my passion for designing and planning that special day for luxury couples both near and far.

With an eye for design and my attention to detail, I try to fill every wedding I am a part of with personality and make it a true reflection of the Bride and Groom. When it comes to making each wedding special, it is the little touches and those perfect moments that are created that truly make each event stand out amongst the rest. My love & dedication to this profession is evident in every Wedding or Event that I work with from the first kiss to the final goodbye.

What to expect

Planning is going to be a fun and exciting experience, especially now that you have a wedding planner on board! I'm sure this is a new experience for you and we are going to have a great time doing it together. So here are a few things you can expect:

1. Planning happens in 3 phases: Booking, Designing & Wrap Up.
2. It's totally normal to have lots of questions, even if you think they are dumb!
3. There will be homework (but no pop quizzes!) along the way. The more you share with me, the easier this planning thing is.
4. Pinterest + the Planning Portal are going to be our best friends!
5. Sometimes wedding planning is best done over a glass (or two!) of wine.
6. I will be there for you during all those crazy, chaotic, emotional moments and I promise you will make it out of all of them with perfect mascara!

Wedding Planning will be much less complicated and a lot less stressful having someone on board who knows the best vendors and has answers to all the tough questions. A wedding planner is more than just a trusted resource, I'm also your best friend during this special time in your life!

What we do (and how we do it so well)

At Designer Weddings, we love weddings! In fact, it is a passion for weddings that has been our driving force behind what we do for our entire career. We are more than just wedding planners, we are dress holders, family therapists, cake tasters, gown enthusiasts, joke makers, and even a shoulder to cry on when the bridesmaids are making you crazy. At the end of the day, Designer Weddings creates a special relationship with each of the couples that we work with and spend the time to truly get to know who you are. It is through this that we coined ourselves as boutique style wedding planners. Personalized, one-on-one attention.

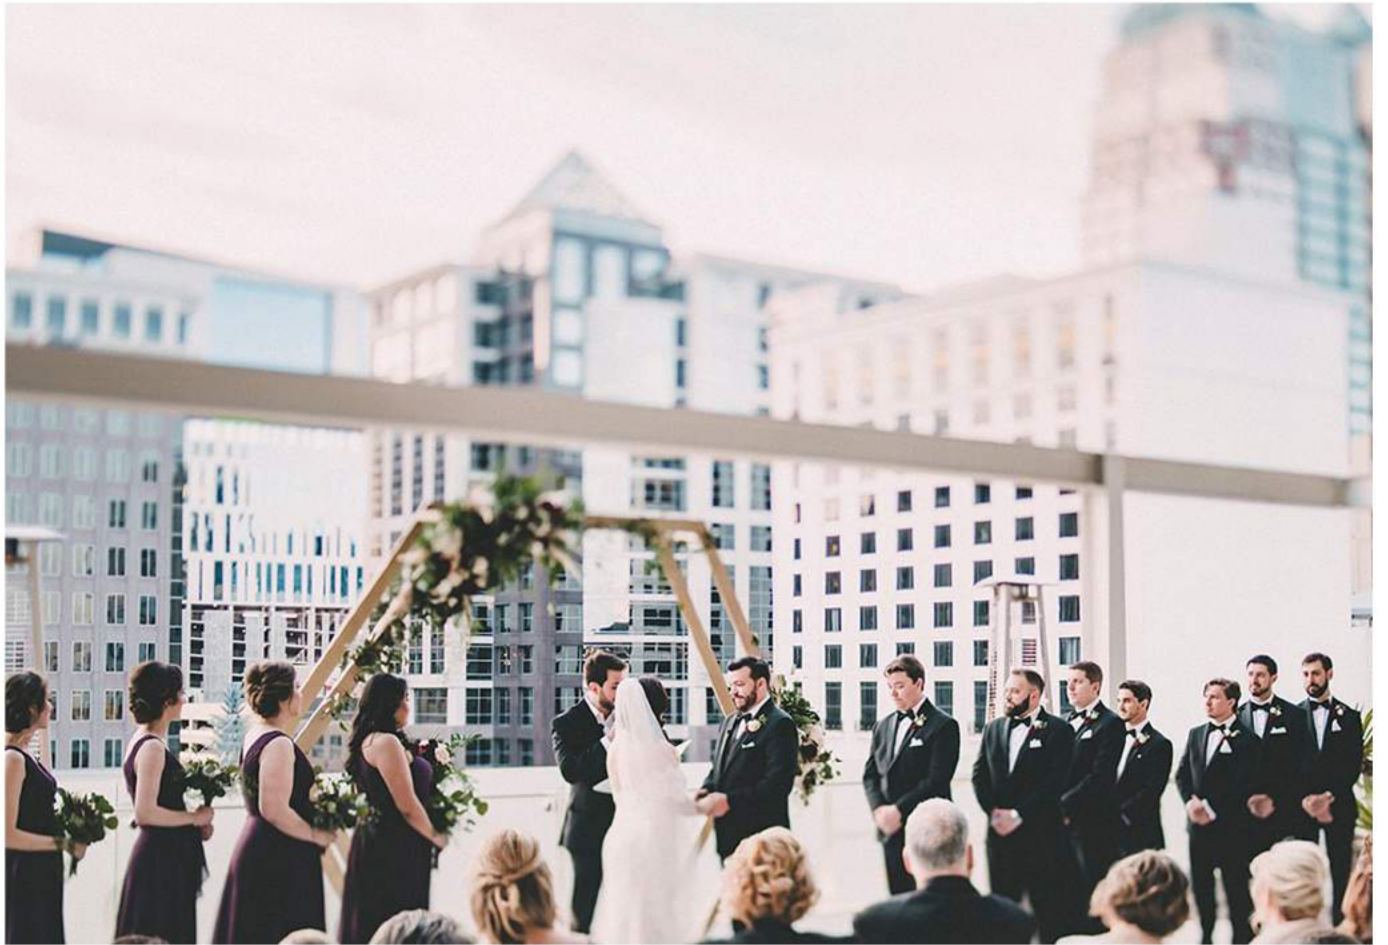

From day one to wedding day, you only work with your planner. You will never be "passed off" to someone else and you never have to worry that the person you are working with doesn't know your details, because you are always communicating with your planner! On the days leading up to your wedding and on the day of, you have the peace of mind of knowing that they are solely focused on your big day and yours alone.

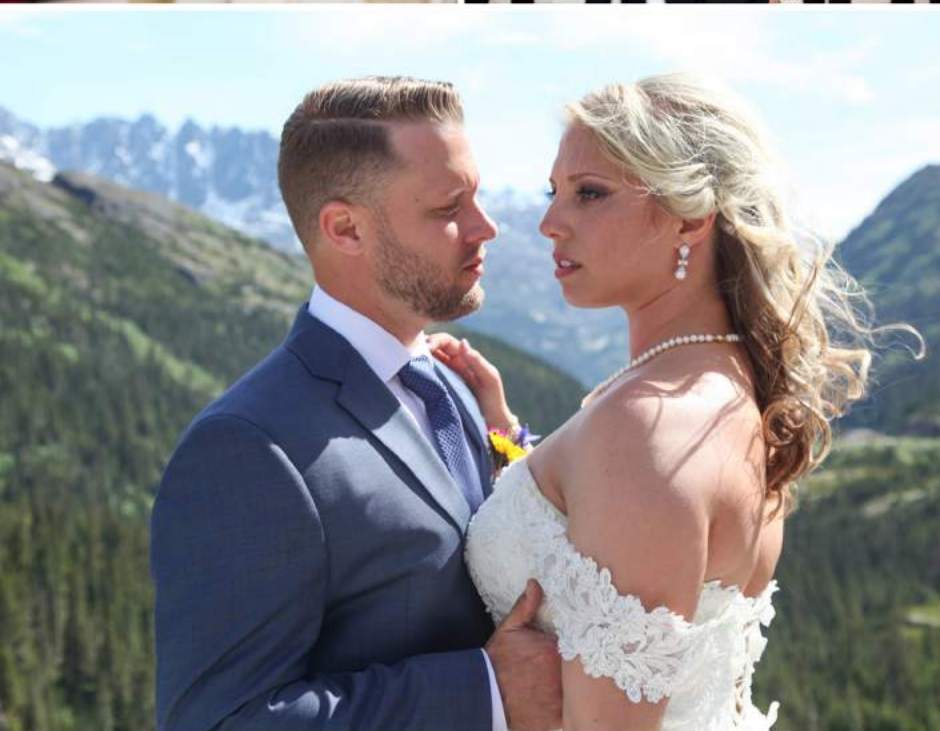

Throughout the planning process, we are here to hold your hand and guide you through this once in a lifetime moment! Whether it's someone to talk you through seating charts & figure out where to put crazy Uncle Charlie or someone to go to every gown fitting with you and make sure it's picture perfect for wedding day, we are there every step of the way.

And on wedding day, we are the person you can turn to for even the minutest of details... from a glass of water to needing to change your shoes 6 times. Don't worry we are right there at your side. Because on the biggest day of your life, you don't want to be worried about the smallest things. We got those covered for you.

Designer Weddings by Carly Rose creates special relationships not just with you, but with the vendors who will make magic happen on your wedding day. So you can rest easy knowing that these rock star teams are going to help you make every memory count, from first kiss to final goodbye! It's going to be the most extraordinary day of your life and we're here to make it a perfect reality!

TIMELINE

BEGINNING

Hello. It is so nice to meet you both and be on this journey together with you. Welcome to the start of your wedding planning process. At the beginning, we will be getting to know each other and really learning about who you are as a couple. This is going to help us as we move into the second part of the planning!

BOOKING PROCESS

The booking process is one of the most important parts of the planning process and is of course, the part we do first! This is where the magic begins to create the perfect day. We will work together to choose the right vendors to make your wedding dream come to life. This special team of individuals is going to create magic for you on your perfect day!

DESIGN PROCESS

After we have chosen the perfect team to bring your vision to life, it's time to start designing the day! During the design process, your vision will take shape as we create the look and feel for the wedding day through color, linen, floral, stationary and more!

WRAP UP PROCESS

During the final 8 weeks of the planning process, we will wrap up all of the special details that we have worked so hard on! The event packet will come together during this time and all of the vendors will be brought together to confirm your day of details. It's almost wedding day!

THE WEDDING DAY

When wedding day arrives, you both have nothing to worry and stress about because our team has planned and covered every last detail for you. You can sit back, have a mimosa and take in all of the special moments to come as you prepare to say I Do. The day you have waited for is finally here!

It's all in the details

From a color to a flower. A picture of grandma's wedding dress to your couch pillow. Inspiration can come from anywhere and it is what will create the design for your dream day. Working from day one, we will come together to create a design and vision that is uniquely you and brings together all of the aspects you want present on your wedding day. From fun to family, tradition to moments that will last a lifetime, it's the details we create that will bring your day to life.

No detail is too small and throughout the planning, together, we will make sure that every one of them, from the tallest to the smallest is covered.

Designer Weddings not only handles all of your vendor bookings but your smaller details as well such as wedding day transportation for both yourself and your guests, rehearsal dinner booking, welcome basket delivery, stationary needs, wedding gown fittings and alternations and much more. We are there to hold your hand through every moment, big or small.

And when it comes to making sure that your vision is brought into every aspect of the day, we are there for that too. Making sure that the design is seamless from start to finish and everywhere inbetween.

During my first meeting with Carly, I shared with her that all of the small details were very important to me and that I wanted our wedding to be elegant and romantic. I also told her that I wanted to plan the wedding in a month before I returned to work as a teacher. She accepted the challenge and called The Alford Inn, my dream venue, during the meeting and we toured and booked the venue that same day.

During the next few weeks, we met with all of our vendors and planned our entire wedding.

During the weeks leading up to our wedding, she checked in with me often to ask how I was feeling, if I had any questions about anything, if I wanted to meet with her to go over anything, etc.

Our wedding was magical!

The ballroom looked like a beautiful garden (with stars on the ceiling). It was STUNNING!

Carly ONLY works with the best vendors.

I knew that I didn't have to worry about anything the day of the wedding because we had hired Carly.

She made sure that everything happened on time and she was so attentive to the wedding party and to my parents. She helped me put on my wedding dress and dry my tears after I did a first look with my Dad which was SO special. She was with me through every step of the process!

Weeks after the wedding, our family and friends asked if we could have the wedding all over again.

Everyone had so much fun and many people have said that our wedding is the

BEST wedding that they have ever been to.
