### **About us, Aesthetic Candles**

Mood is demonstrably affected by scent. Your sense of smell is the strongest sense tied to memory. Over 160 studies tell us that happy people are healthier. Seeking out the right smells could make you a happier person. You catch a whiff of pumpkin pie, school glue, newspaper, or fresh-cut grass and suddenly you're immersed in a flurry of vivid memories, often from your childhood. What is it about smells that can trigger memories so strong and real it feels like you've been transported back in time?

We offer an alternative to "Petro-soot from paraffin candles gives off the same soot as the exhaust of a diesel engine, and is considered just as dangerous as second hand smoke, causing problems from headaches to lung cancer."

We create Earth Friendly Candles

Created from an organic soy wax, we use lead cotton wicks, no paraffin wax or fragrances that contain the "bad stuff". We use only the purest ingredients. Our candle is created using strong and true fragrances, we are very selective. Our Aromatherapy and Chakra candles are scented with pure essential oils.

We believe that we can all play a part in saving our global environment.
