It's Your Day to Shine

Sutography Wedding Brochure

2020-2021 all pricing subject to change

Hello from Holly & Mat

We are creatives that care about you as a couple and we want to help you tell your love story.

We do this through imagery that shines. Inspired by light, color and creative composition, we never stop shooting and we will do anything for the perfect shot.

Our thoughtful approach ensures you will be comfortable and most importantly that you are able to enjoy every moment!

Our style is the ultimate blend of photojournalism and artistic portraits. We are observant and understand that even the smallest detail matters.

We use our creative passion to capture breathtaking and timeless imagery that highlights your love and all the special moments.

We know you have a vision for your wedding day and we will help it go off without a hitch.

Fun fact, couples often ask what Sutography means...

Our last name is Sutor and when we were getting ready to launch our wedding business and bouncing off names together, Sutography just naturally rolled off Holly's tongue and it just felt so natural, we went with it!

We are happy to tailor a package just for your big day!

Have questions? We love to help, here are some common questions and always feel free to email, call or text us with *anything* that is on your mind!

How many hours of coverage do we need? One of our most popular questions!

Our average coverage is 8 hours and that usually includes arriving during getting ready and staying until the dance floor cuts loose. Every wedding day is different and we are able to tailor the exact coverage you are needing so feel free to share your vision for how your day will unfold

Here are some additional suggestions and ideas to help with choosing based on our years of experience.

If your wedding day is all in one location, you have a smaller wedding party, you don't want to see one another until the ceremony, **6-7 hours** can often be ideal.

If your wedding day is at one-two locations, you have a wedding party of 6 or more, you want a first look or a grand exit documented, **8-9 hours** would be recommended.

Planning for a catholic or cultural ceremony, multiple locations throughout the day, a large wedding party or a break in the day between ceremony and reception, **9-10 hours** coverage is a great start.

Do you charge for travel or number of locations?

We do not have travel fees within San Diego County and our coverage includes unlimited locations. We also travel to Temecula, Fallbrook and venues within 60 miles of our studio without any additional fees.

PHOTOGRAPHY FAQS

Do you provide the high-resolution edited images to your wedding couples?

Yes we do, with print rights. You receive all the final edited images without a watermark. We also provide the high-resolution images for your engagement session too.

Do you edit all the images I receive?

The answer is a big YES. After your big day, we will edit every final photo that will be delivered to you. Our editing focuses on vibrant color and contrast with a small mix of black and white photography too. We also do not out-source our editing, making sure every final photo has the look and feel that we strive to deliver our couples.

How many final images will I receive?

You will receive a lot of images, without quality being sacrificed, we take these images for you so we don't hold back. On average for an 8 hour wedding day we deliver 1200-1500 final images.

Why should we consider an engagement session?

We definitely think it is a great idea to include your engagement session in your package. It is an ideal way for us to get to know each other and the way we approach photography. It's also can help reduce those nerves of being in front of the camera. Together we brainstorm to choose a location and style that fits your personality. Plus there is nothing like capturing you as a couple at this exciting time in your lives.

Why do you recommend a professional wedding album and what additional products do you offer?

Sutography believes that the album is like the cherry on top of the sundae, it's your first family heirloom together. Our luxury albums are a piece of art and tangible representation of your wedding day. With a range of cover styles you can customize the album to your own personality. The album pages are individually designed for every couple by Holly into gorgeous layouts showcasing your favorite photos. Our couples have revision input and will approve the final album design before it is ordered. We also have beautiful affordable parent book options too.

With your online image viewing gallery you will have access to order professional prints, artistic mounted prints, gallery wrapped canvases, framed prints, albums and much more.

VIDEOGRAPHY FAQS

What is a Full Length Movie?

Sutography delivers our couples with an amazing full-length movie cinematically edited to relive your day. All live events such as your ceremony, first dance, toasts, cake cutting, etc. are edited together and presented in real time. All the candid documentation is seamlessly incorporated to deliver a wedding movie for your very own movie night. The full length movie averages 90 minutes depending upon the length of your ceremony and reception events.

What is a Highlight Movie?

Our highlight movie is a summary of the key moments of your day edited in a modern music video style usually averaging 7-9 minutes.

How are the movies delivered?

You will receive three final discs in your choice of HD Blu-ray or Standard DVD along with a digital download of both movies too.

What is a Social Media Movie?

A 30-60 second movie that we capture from your engagement session that can be fun to share before or on your big day.

What is an Engagement Love Story Movie?

Some couples want to share a little or a lot about their journey together and our engagement love stories are a unique opportunity to tell your story and surprise your guests by presenting it on your wedding day.
