### What the customer should know about our pricing is ...

Our standard pricing includes a professional booth, delivery, setup & breakdown, fun props, 4x6 quality photos, easy social media sharing, access to online gallery photos, and photo booth attendant. And we offer **free consultation** so you receive a custom experience that matches your event- from themes, to colors, to props.

### My typical process for working with a new client ...

I always start by asking you a few questions during your free consultation to learn about your event, like colors and themes to build a personalized experience. Once you've picked a date, photo strip design, and photo welcome background - we'll take care of all the rest.

### Below is some of the training and or networking I do that is related to the photo booth industry ...

I'm a proud member of the Photo Booth Association, and the Conyers-Rockdale Chamber of Commerce. I also attend conferences and other networking events throughout the year to stay current on the latest photo booth techniques, styles and innovations.
