

# *Services and Pricing for The Cake Maker*

[www.thecakemaker.us](http://www.thecakemaker.us)

***I have a minimum of \$300 to include delivery. There are a few venues that I require an extra delivery fee. Please see my delivery location document to see if your venue requires an extra delivery fee.***

***I service Grand, Summit and Eagle Counties primarily. For deliveries outside of these counties, please reach out. I typically charge a minimum of \$600 to deliver beyond these counties.***

## **Wedding Cakes**

My cakes average \$5 a serving. For example, a three-tiered, buttercream finished cake to serve 80 guests is \$400.

I have a minimum of \$300 to include delivery.

My pricing does not include embellishments for the cake since they are so personal to each couple. Embellishment are things like fresh flowers/greenery, topper, cutting set or cake stand if you should wish to have something nicer than a cake drum. The cake drums that I keep on hand are white, a half inch thick and are disposable. If you will have a florist for your wedding I would suggest ordering flowers and greenery for the cake through your florist so that everything matches your floral décor. I am more than happy to decorate the cake when I deliver if the flowers are on site. All of the cakes on my social media pages and my website I did the floral and greenery arrangements on.

Please check my delivery location document to see if your venue requires an extra delivery fee. If the venue is not listed, please reach out and I will happily let you know if I deliver to the location and if any extra fees would incur. For deliveries beyond Grand, Summit and Eagle counties I have a minimum order of \$600. Depending on the location I sometimes stay the night in the area. I would cover that expense if I felt the need.

To receive a quote, please send photos or a written description of what you have in mind along with an estimated guest count, wedding date and your wedding location to my email [sarah@thecakemaker.us](mailto:sarah@thecakemaker.us). You can also reach out by phone, 970-471-0700. Due to my schedule I typically respond to phone calls from the Friday-Sunday on Monday.

## **Groom's Cakes**

Groom's cakes start at \$5 a serving. Cost will increase with intricate designs.

**Cake Tastings** – *I am currently offering tastings through the mail year-round. Tastings are typically sent out on Mondays.*

*If you would like to do a tasting through the mail, I would suggest making an event of it and purchase a bottle of wine or champagne!*

### Cake Tasting through the Mail - \$30

This includes 3 cake flavors (2 cupcakes of each flavor) and 3 frosting flavors. The cupcakes and frosting will be packaged separately so that you can try any combination that you would like!

I do not put fillings through the mail because they do not hold up through transportation.

If you would like to try additional cake or frosting samples the cost will be \$5 per extra cake sample (2 cupcakes) and \$2 per extra frosting sample!

I use priority mail through the USPS. Using Priority Mail the tastings average arrival is the day after shipment to the Front Range of Colorado and 3 days to California, Oklahoma and Texas. The East Coast takes the longest with an average of 4-5 days.

If you would like for me to Express Mail the samples I charge an extra \$30 to cover part of the shipping cost.

### **Undecorated Sheet Cakes**

I make sheet cakes 4" tall to match my standard wedding cake tier height. They can have a cake, frosting and filling flavor just like the bridal cake!

My sheet cakes serve 40 bridal servings and are \$100 per sheet cake. I can rough mark the top of the cake to help with cutting if you wish.

They will not be decorated, so you would want to have a place to put them that is not next to the decorated cake.

### **Cupcakes**

Cupcakes are appreciated to be ordered in increments 48, which is 4 dozen and the number that I can fit into a box.

You are welcome to order different flavor combinations by the dozen to fill the box.

The more flavor options that you offer to your guests the more cupcakes will be needed. Most guests will have more than one cupcake when they see that you have options. Every family is different though. My family LOVES cake, but yours may not. Keeping the flavor combinations to two or three options will keep the number of cupcakes needed down.

Example of Cupcake Order: Event with an expected guest count of 100 that has only cupcakes for dessert and orders 2 cupcake flavors should order 144 cupcakes (72 of each flavor). This order would fit into 3 boxes if they are to be delivered/picked up and not put on display immediately.

Unfilled Standard Sized in a plain liner - \$3 per cupcake.

Filled Standard Sized in a plain liner - \$3.25 per cupcake.

### **Giant Cupcake**

A giant cupcake is \$75.

Serves 10-12 cake portions plus it has a pound of chocolate for the "cupcake liner"!

### **Bundt Cakes**

Regular Size Bundt Cake \$60 each (**serves 15**)

Bundtlette Cake \$5 each (**serves 1**) **Flavors in increments of 6.**

### **Rice Krispy Treats**

\$20 a dozen

*Order by the dozen.*

### **Cookies**

\$25 a dozen

Flavors: Chocolate Chip, Peanut Butter, Snickerdoodle, Sugar (Not decorated), Oatmeal,

Oatmeal Raisin

*Order by the dozen, of all the same flavor.*

### **Brownies**

\$35 a dozen

Flavors: Chocolate Fudge

*Order by the dozen.*
