# ABOUT US

Victoria and Joe work together to create a wonderful wedding-day experience, not only creating beautiful photos, but also planning every detail to make things fun, romantic, and magical.

Victoria has been a wedding photographer since 2006 and holds a BFA in Fine Art Photography from the University of North Texas. She specialized in fine-art documentary photography, which she's expanded into her unique style of blending landscape photography with natural-feeling wedding portraiture.

Joe is a true renaissance man--he can be your videographer, photographer, officiant (in both English and Spanish), musician, and your quirky new best friend. He brings creativity and a playful joy into all of his duties.

Both Victoria and Joe have professional experience as guides on public land, which enhance your adventure elopement experience, by pointing out edible plants and spotting wildlife and helping out with survival skills like first aid and navigation.
