TIMELESS STYLE

All my stories are elegantly told staying out of time context. I have a great eye for detail and an amazing sense of aesthetics crossing with my ability to see beauty in the moment and people making me an exceptional photographer.

LUXURY EXPERIENCE

From the first contact to the anniversary cards - you are my priority, and your story, your wedding, and your journey are unique and deserve full personalized attention. All the interactions are customized and client-friendly. If you are the one who loves to discuss your photography plans in person with a glass of wine, so do I. If you are more efficient we do it your way over the email and questionnaires that you fill out at your convenience.

ENDLESS SUPPORT

Planning a wedding takes a million decisions to be made. And it gets confusing or overwhelming sometimes, so it is always great to have more people in your corner. In me, you can find a friend, an expert, and always a supporter. Someone who can give valuable advice or just remind you that "you are doing your best and that's quite enough".
