WHAT THEY SAY

"I used to hate those Teams and Zoom meetings. The camera would pick up every line and wrinkle. I got Botox and filler and it looks so natural – It took 10 years off my 62 year old face. I don't dread the meetings anymore! Thank you Katrina and Debbie!"
- Betty Z.

"This place is amazing! Katrina is very knowledgeable with skin care and suggested a regimen for my skin within my budget. I absolutely love the products! Not only does she have the knowledge but she also exudes a friendly and welcoming personality that made me feel comfortable discussing any issues or concerns I had relating to my skin health. I had a wonderful experience coming here and highly recommend this place."
- Virooth C.

"I have been to KLS for several treatments. Katrina takes the time to get to know each individuals skin. I was so thankful Katrina detected a spot on my face that I had been previously told was nothing. On her recommendation I had it checked by my Dermatologist. It was a precancerous spot! If not for Katrina I probably would have let that go."
- Andrea T.

BOTOX® Cosmetic works beneath the surface and temporarily reduces the underlying muscle activity that causes moderate to severe frown lines, crow's feet and forehead lines in adults—to help them look visibly smoother.

JUVÉDERM® is the #1 dermal filler collection in the world that offers 5 different products to meet your specific needs. Add volume to plump lips, smooth lines, or lift & contour cheeks—we have what you need to get the results you want.

KYBELLA® is the only FDA-approved injectable treatment that destroys fat cells in the treatment area under the chin to improve your profile. Good bye double chin!

Vitamin B12 shots increases metabolism, boosts energy and mood, relieves stress and helps with anemia.

Cosmetic Tattoo deposits colored pigment into the upper layer of the dermis. There are many people who benefit from eyeliner and lip tattoo; people who tend to sweat off makeup but want to continue looking their best without reapplying, the vision challenged and others who have dexterity related conditions. Lasts 1.5-3 years.
