PHOTOGRAPHY

FOR THOSE WHO SEEK

THEIR OWN PATH  
FORWARD

## About Whitney

I've chosen the path of photography because it allows me to connect and collaborate with people like you - people who value experiences over material things, who appreciate the crafts of art and photography, and those who are truly in love. I am inspired by your choice to celebrate your day in your own unique way and am so honored by the role I get to play in gifting you beautiful, intimate memories that will last a lifetime.

I'm a houseplant lover, a chronic re-decorator and a strong believer that less is always more. I have a cat I call Sylvia, and I love to spend free time outside, traveling to new and unexplored places.

# My Why

I believe in love, and the choice that couples have to celebrate in a way that is true to who they are. I am inspired by the spark of life and I am fulfilled by the call of adventure, genuine relationships and the beauty that comes from an uninhibited, honest connection. I find honor in playing a powerful part in my couples' love stories, and I experience true joy by sharing my own love of photography to help capture these unique expressions of union. I am determined in my vision. I am grounded in your values. I am pulled forward by a genuine desire to gift my couples with beautiful, intimate memories that last a lifetime.

## Your day

This is your celebration of love and you should do it wherever and however

Whether you are deciding to have a wedding or elope I always suggest a full day coverage of photos. Because honestly you deserve it and I may be biased but I believe wedding photography is the most important wedding investment because that is all you have left when the day is done and over. Your photos will only become more valuable as time goes on.

"Whitney was so much fun to work with! My fiancé and I have been engaged a few months now, and we luckily found Whitney through a referral. On the day of the shoot she had such positive vibes and one goal in mind—get the best pictures you've ever seen of you and your partner! We had so much fun climbing on rocks and running through fields. There was never a moment of "what do we do now". She was always on her toes thinking of new ideas, picking flowers for me to hold, and always making us smile naturally. When we got the pictures back we were beyond pleased. Not only did I love the way she captured us, but I loved the way she edited the photos as well. If you are looking for someone to capture special moments of you and your partner, look no further. Whitney is sweet, easy going, and an incredible photographer".

# Second Photographer

\$100/hr

There are many benefits to having a second photographer on your wedding day. The biggest reason is you will have twice the coverage of the day. Also I can only be in one place a time so having a second person means they can be covering one part of the day while I am covering another. The biggest reason for me is it will allow me to be more creative. My second photographer is able to get the more safe shots while I can get more nontraditional shots. I have carefully selected a couple of photographers that I work with that have a very similar style as me and will most likely arrive and leave with me.(minimum 4 hours)

# Polaroids

---

\$100

Polaroids are a super fun thing that I include in all my packages. I include them because it allows me to give you physical photos at the end of your day plus they are nostalgic and dreamy and something you are able to keep forever.

# 35mm Film

\$150

35mm film is just regular film that I get developed and send you after your wedding. You will receive approximately 24 4"x6" photos. It is just another fun and nostalgic thing to add on in addition to your digital photos. I have been shooting on film my whole life and no, film is not dead!

# Super 8 Video

\$600

Super 8 film is very nostalgic and honestly super cool. I can give you a 2-3 minute video of your day with music. This is something I recommend for every wedding and will absolutely have it at my wedding.

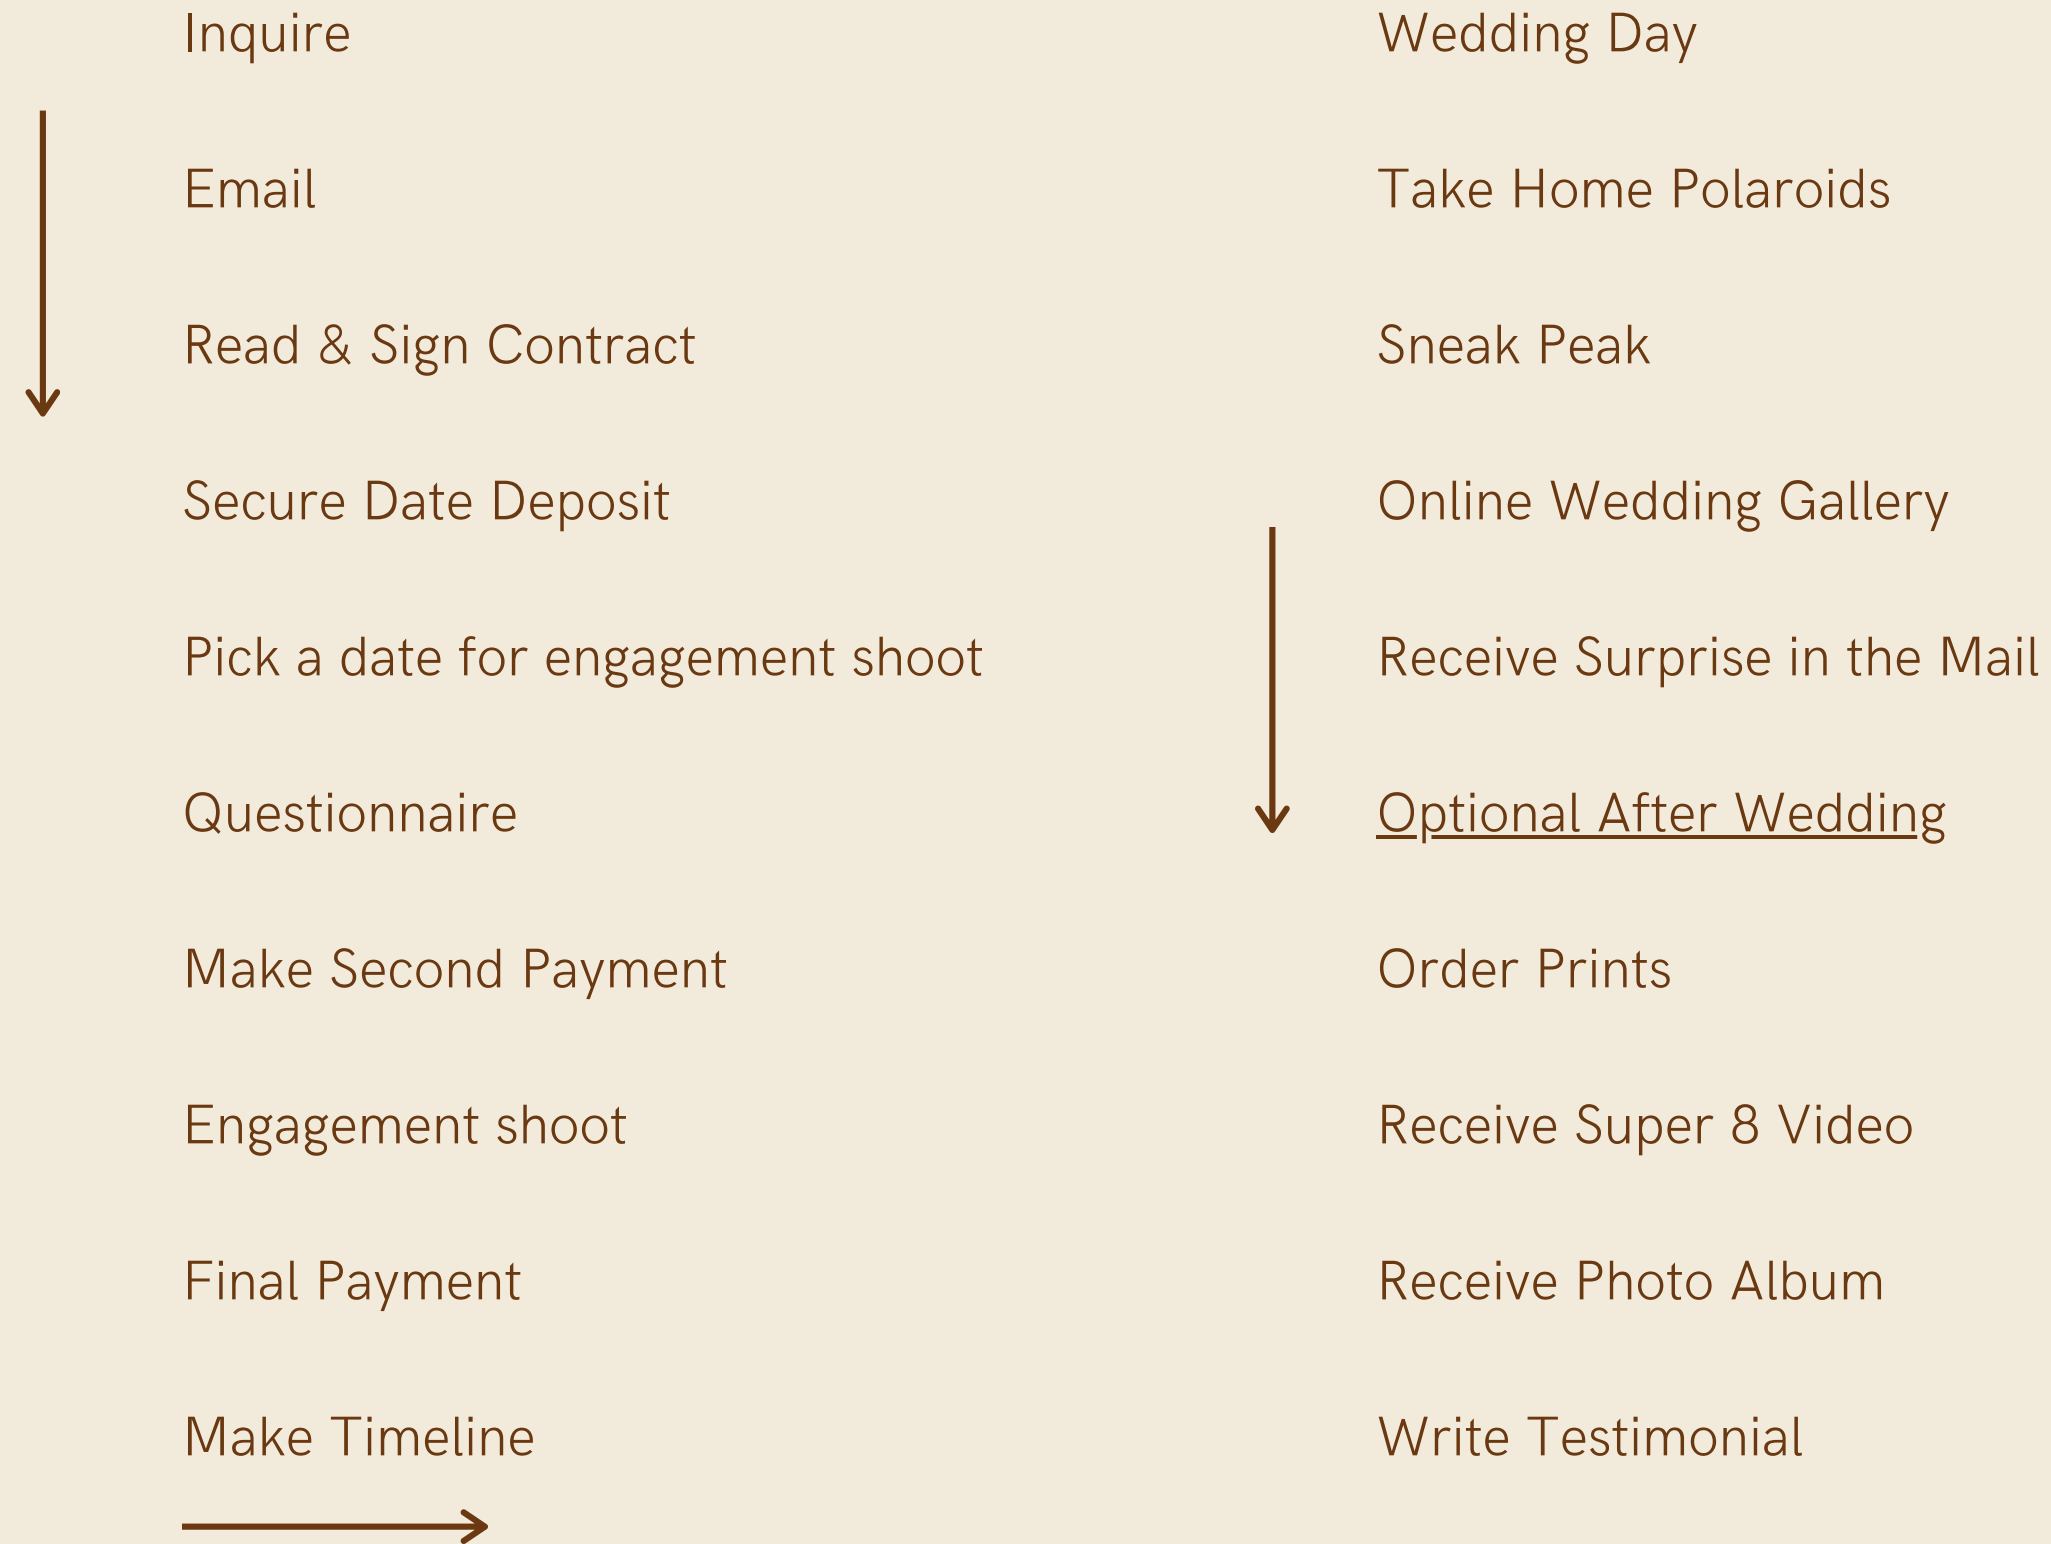

# Photo Album

\$500

Photo albums are a must in my opinion. Looking at a computer screen is not the same. Having a physical book to hold and reminisce about your day is so wonderful. It's nice to share with friends and family when they come over and it's nice to be able to look at it together through thick and thin.

# FAQ

How do we get our photos?

You will get your photos in a private online gallery and you will be able to download, share and print the images.

How many photos do we get?

I don't guarantee a specific number but you will receive approximately 50 edited photos per hour. I promise you will get plenty and I won't leave any good ones out.

When will we get our photos?

You will get couples session photos within 30 days and wedding photos within 90 days. Polaroids you will get to take home that night.

What if I don't know what to do in front of the camera?

That's totally okay. I am here to guide you. I like to keep things natural and moving so you won't really feel like you're posing but just interacting organically with each other so I can capture those intimate in-between moments.

How do the payments work?

The date deposit will be due within a week or the invoice being sent. The second payment will be due six months before your day and the remaining balance will be due a month before your wedding.

Do we meet before the wedding?

I always suggest a couples photo session so we can meet and you can get an idea of what it will be like on your big day but I know that is not always possible.

Do you travel outside of Indiana?

Of course! I love traveling so I'll go anywhere.

"Whitney was absolutely amazing to work with! She made the two of us feel so comfortable and captured us being ourselves on our special day. Her style and eye for composition are also very beautiful. Whitney was extremely friendly and I would highly recommend her to anyone searching for a wedding photographer."
