

A romantic wedding photograph of a bride and groom kissing in a grassy field at sunset. The bride is wearing a white, sleeveless, floor-length gown with a long train and is holding a large bouquet of flowers with orange, pink, and purple blooms. The groom is wearing a light blue dress shirt, a dark tie, and grey trousers. The background is a soft-focus landscape with trees and a warm, golden light from the setting sun.

## “Capturing all of life’s special moments”

I really just have a passion for photography and I feel as though pictures are the best way to capture special moments that all individuals can savor for a lifetime. One of the reasons I love photography is simply because it is the one language that everyone around the world can understand - it’s a way for people from all different cultures to come together. I love being behind the lens and enjoy doing shoots with different people as well.

Those who I have taken pictures of have described me as ambitious, kind and creative. I constantly strive to become a better photographer and I work every day to reach that goal; I push myself to try new things and venture out beyond my comfort zone. To those of you who continue to reach out and ask me to take photos of you and your families time and time again, thank you! Your support only pushes me to become better and it also gives me the confidence to continue doing what I love!

I dream of being able to create your perfect photo, one you love enough to display in your home or share with your loved ones. To know that I have put a smile on someone’s face or made them feel good about themselves is to know that I have done something good with my passion. Photography is an art form that so many individuals can enjoy, but I want to make sure all the eyes are on you, the subject of the photo, so that you, too, can be admired.

Photography savors the moments that many may forget; It captures the joy and the love in the world that some may not think about. Photos are something we can all keep for a lifetime and I hope that I can be a part of keeping those memories alive.

Ever since I held my first camera in my hand I knew photography had to be a part of my life.
