

# Wedding Packages

## All Packages include: This is my standard

The Bride provides a shot list of certain shots/poses that are important for her to have from her special day, this can be a Pinterest board, or an actual list of poses that she views as important. A slide show is setup at the reception (if desired), showing all the ceremony and fun photos taken of the wedding party and Bride & Groom. I provide a review of all your photos at a meeting we setup after your wedding so you may see the edited images I have worked on and choose to buy all your images or more edits!
