

Rev Jeff Eller - The Marrying Man

www.kyminister.com 859-221-0529

As a wedding minister/officiant, I spend a lot of time helping each couple create a ceremony that perfectly captures who they are and the love they share. A “good” or “great” wedding does not happen by itself. It takes a lot of planning and coordination. But there is a big difference between “price” and “cost.” If the ceremony gets messed up, the “cost” will be much greater than whatever “price” you paid the officiant. Your officiant plays such a critical role in your whole day that this is one area you don’t want to “just go with the cheapest”.

Elopement	\$75	When you just want to get married without a lot of fuss, this is the way to go. The 2 of you come to my location in Versailles with up to 6 friends/family members for a short but meaningful ceremony. I can even provide the witnesses if it is just the 2 of you.
Simple Ceremony	\$200	This short ceremony is for those on a budget, and includes pretty much only the exchange of wedding vows and rings. There is no meeting or rehearsal ahead of time. We will briefly go over the basics of the ceremony on the phone, and then we’ll meet at the wedding. If you are having a large wedding and reception with a lot of guests, this brief “vows only” ceremony is inappropriate. My fee includes travel within the greater Lexington/Frankfort area (a mileage fee will be charged for greater distances).
Custom Wedding	\$395	The vast majority of the weddings that I do (over 90%) are with couples who want to have a celebration of love that is customized and personalized, just for them. In order to do that, we will meet together personally (or via skype) to go over your plans and vision for your ceremony. Then I will write up a completely customized wedding ceremony for you, with all of your special choices included. I will attend and conduct the rehearsal if there is one, and walk everyone through their parts of the ceremony. As a result, your wedding ceremony will be wonderful, meaningful, and exactly what you want. It usually takes me about 10 hours to prepare for a full-service wedding.

These prices above are subject to change and when possible I will do what I can to work with your budget.

As far as my credentials go, I have degrees from North Central Bible College and Asbury University. I have been an ordained minister since 1991, after I graduated from college. I have led thousands of religious programs and ceremonies of many different kinds. I have performed approximately 1000 weddings all over Kentucky, and as far away as Washington DC and Florida, with no two ceremonies being the same.
