Who are we?

William Walker Photography is comprised of husband and wife team, Will and Jess. We love awesome, sweet, funny couples that like to have fun just like us. We adore thoughtful, creative, nerdy, goofy people in love. We think your wedding day is about coming together with family and friends, seeing your vision come to life, embracing all the hard work invested in planning, Champagne toasts for the girls, and Bourbon cheers for the guys.

We like to go into a wedding day with fresh minds and open eyes. We strive to not only capture the day in a photo-journalistic fashion, but also to create unique and dramatic portraits that reflect the day, be it sunny, cloudy, rainy, or star-filled. There are so many elements to your wedding day and we love being a part of them all. An emotional first look, a sweet first dance, the rowdy groomsman you were worried about, and all the personal details that the bride and groom bring to the day. We love what we do and we hope you do too.

We understand and experiment with light. That's what photography is to us. We take the literal meaning of photography to heart. "Photography: From photos (φωτος), light, and graphos (γραφοσ), writing, delineation, or painting"
