Abbreviated Pricing & Package Guide*

Standard Coverage: $3,695

Complete Full Day Coverage: The only way to really capture the essence and spirit of your wedding is to be there from when you start your day, until you and your new husband/wife have had your last dance and left the reception. Amazing things happen over morning mimosas and at the end of the night when your closest friends and family are surrounding you on the dance floor for your last dance – and I'll be there for all of it.

Wedding Website: Your wedding photos will reside for a year on a beautiful viewing gallery website, where friends and family can not only see the photos and order prints, but can also directly download any of the photos at no charge, relieving you of having to email everyone their digital photo requests.

Digital Photo Rights: You have the rights to your wedding photos! The photos on your wedding website are in maximum resolution at 300 dpi. They're all edited beautifully, and ready to print. You, your family and your friends have the ability to download any or all of the photos for free. You all have the rights to order prints from the website, download and make your own prints on your home printer or your in store or online printer of choice, as well as save and share any or all of the photos. There are no watermarks on the photos.

Booking
Securing your wedding photography is easy. All contracts and proposals are all reviewed and completed online. The $1,000 retainer can be paid with credit card online (or you can mail a check) and is due with contract signing. The balance is due no later than 60 days before the wedding date and can be paid in part or in full anytime via the client login page on my website.

Thank you!
Hooman
