Each wedding and each ceremony are as unique as the brides and grooms themselves. So much time and dedication is spent crafting **a day that is unlike any other** and celebrates the love, humor, and passion that makes your relationship special and something to celebrate.

We understand each couple's desire to design a unique and unforgettable event that they, and their friends and family, will remember for a lifetime. We are also passionate about matching the uniqueness of your celebration with **creative and captivating wedding photography** that displays the beauty and authenticity of your monumental day.

To capture your originality and uniqueness in a timeless collection of images, we creatively photograph those **impromptu and unchoreographed moments** that happen in the blink of an eye. While we often find the most memorable images are of those spontaneous moments, we love to photograph **classic, well-posed wedding portraits** that are always timeless and never cliché.

You will receive a stunning collection of photojournalistic images that capture those special, unrehearsed moments and a creative compilation of well-lit, stylized portraits. This comprehensive library of **images will be yours to print and share for a lifetime.**

FAQs

DO WE GET THE DIGITAL FILES? Absolutely! All standard and custom packages include high resolution digital files in both color and black and white delivered as jpgs.

HOW DO WE GET OUR IMAGES? Within three weeks of your wedding day you'll receive a link to your password protected online gallery and a code allowing you to quickly download and save your images.

DO YOU EDIT OUR IMAGES? Yes, we optimize each image individually to ensure the color balance, brightness, contrast, saturation, cropping, and more are perfect before you receive your images. Custom enhancements and detailed retouching are available at additional costs.

DO YOU HAVE A LIMIT ON THE NUMBER OF PHOTOS YOU TAKE? Nope. I take a lot of photos and deliver a thoroughly curated collection of images to you. For a 6 hour wedding you should expect to receive around 700 images, but every wedding is different.

HOW WOULD YOU DESCRIBE YOUR STYLE OF SHOOTING? Approximately 75% of the images you will receive are candid/photojournalistic and 25% are posed portraits. Most of the posed portraits are during the family group photo session, normally after the ceremony, and stylized portraits of the bride and groom.

DO YOU HAVE ANY PROFESSIONAL PHOTOGRAPHY TRAINING? Yes, after graduating from the University of Colorado with a marketing degree I graduated from the Rocky Mountain School of Photography.

ARE YOU COMFORTABLE PHOTOGRAPHING IN A LARGE VARIETY OF LIGHTING CONDITIONS? Yes, from dark churches and chapels to fluorescent and tungsten lit venues, we use cameras with superb low-light performance and always balance our light to the correct color temperature.

WHAT KIND OF CAMERA GEAR DO YOU USE? I use the highest quality Canon cameras and lenses and professional lighting equipment. I shoot your wedding day continuously with two cameras and a variety of lenses.

DO YOU DO DESTINATION WEDDINGS? WHAT ARE THE ASSOCIATED FEES? Yes, we absolutely do destination weddings. For weddings outside Colorado please contact us for more information. For weddings from Cheyenne to Colorado Springs and west to Vail there are no additional travel fees.

HOW DO WE BOOK OUR WEDDING WITH YOU? Wedding dates get booked fast so we encourage you to reach out as soon as possible. We book up to 18 months in advance and it's a simple process of reviewing and signing our wedding contract and paying a deposit. This can all be done remotely and I'm happy to Skype or jump on a phone call - **970.222.9194**
