

NUBBINTOWN FARMS

Weddings

hello. . .

Nubbintown Farms is a family owned and operated. The farm is rich in traditions and history. The land itself has been passed down for many generations. Along with the wedding venue and lodging, the property boasts 1200 acres of row crops, cattle, and newly added blueberry farmland. Throughout the year you will see the farmers tending to the fields as they prepare for harvest. Depending on the year and season the ever changing fields makes our farm a magnificent sight to behold.

"Nubbintown" was one of the very first names that our little town of Edison was given. People referred to the area as "Nubbintown" when it was only a postal stop. A nubbin is something very small for its kind. We named our farm Nubbintown Farms as a love note to our little town. Edison is our nubbin town we are proud to call home.

Aside from our wedding venue we have lodging and room to roam. Come tour our venue. We hope you will feel at home.

Wildflower Ceremony Site

As the newest addition to our venue, our wildflower ceremony site is stunning. The wildflower meadow surrounding the manicured ceremony lawn is full of colorful blooms. In the spring, summer, and early fall the ceremony site is in full bloom. During the fall and winter months the meadow boasts a blend of amber, native grasses. This site is conveniently located right behind our Lowe Road Dairy reception area.

Waterfront Ceremony Site

This beautiful spot is tranquil and pleasant during any season. The ceremony site is covered by a canopy of old hardwoods. The waters edge is a fantastic spot for any couple looking for a natural ceremony.

This location is right below our Hunting Lodge making it very convenient to access for the wedding party. It only takes a short drive through the farm to get to our Lowe Road Dairy reception area.

Reception Barn

Our reception barn is spacious and versatile. You can crank up the volume and dance the night away under our handcrafted, industrial chandelier. The spacious stage is outfitted with an ornamental wooden wall bringing that "little something extra" to the space. The barn is equipped with tent siding curtains that can be opened or closed to keep out the weather. The barn has heat for the colder months and industrial fans for the warmer months.

Historic Lowe Road Dairy

The historic Lowe Road Dairy is full of character and charm. Built in 1947, this little barn is a staple to the history of Nubbintown Farms. The dairy barn is a versatile building, but is traditionally used for the rehearsal dinner and food service during the reception. Walking through the building your imagination will come alive with possibilities. The walls and floors tell the story of Nubbintown Farms through the years. In the original concrete floor you will find our grandmother's childhood footprints running through milking parlor. That small accident, stamped in the floor to forever tell the story of a happy little girl.
