

WHAT IS PHOTOCUBE?

Photocube has a fresh, modern design aesthetic, paired with high-quality fabrication that looks great at any event. Our 'Cube was designed with large events in mind, and can fit up to 10 people to give your guest plenty of elbow room to create expressive, memorable photos. Guests outside the 'Cube can check out the fun inside with our 17-inch display that shows how goofy and entertaining 'Cubers can get.

In seconds, the Photocube will print brilliant, lab-quality photos for your guests. The 'Cube offers both vivid full-color and classic black-and-white 4x6-inch prints, each with water- and fade-resistant coatings that will keep your photos vibrantly stunning for years. Every photo from your event will be available for purchase or download through our website so you can share memories.
