

### **The Master Plan - \$500**

Ready to D-I-Y your wedding but not sure where to start? Overwhelmed by all the options and not sure what is realistic or even possible? Or maybe you'd love to have a wedding planner, but it's just not in the cards...

If you'd just like some help getting started and would love to have a custom plan designed for you to guide you along the way to your Big Day, my Master Plan package is perfect for you.

What's included with this Master Plan? So glad you asked!

It all starts with a private, one hour phone consultation. This is when you'll share your wedding dreams, vision, wishlist and budget AND where you can ask questions to your heart's content. I'll make sure we cover the important details so you'll have a good foundation to work from.

After our call, I'll create a personalized Master Plan just for your wedding INCLUDING vendor recommendations and I'll also send you the pro planning tools including timelines, checklists, and more that I use for my Full and Partial Planning clients. These planning tools include my *Things to Think About* tips - practical advice to help you as you plan so you can avoid common pitfalls.

This all comes with my promise that I never take any kickbacks or referral fees from vendors I recommend and will only suggest wedding pros who best fit you based on your specific budget, needs and vision.

If you're ready to get started planning on the right foot, schedule your Master Plan call today!

**Full & Partial Planning packages personalized to meet your needs. Schedule a free consultation today to find out more!**
