### The Journey to your Wedding Art

I believe that your special day marks the start of your forever with your life partner and will generate some of the most valuable art you will ever own. Art marking the start of your journey together should be seen, appreciated and passed down through generations of your family and not just live in phones and scattered websites.

#### 1. In-Person Consultation

The process begins with you getting to know more about me and more importantly, I get to know your love story while meeting both of you as you share your vision of the day and your dreams of life together. During this time, we will go over different photo packages and options that would fit best with your plans. Additionally, you will have a chance to see samples of the type of art that will come from YOUR special day. Once you select me to capture your precious memories in photos, a 50% deposit will be required to hold the day.

#### 2. Wedding Photographic Design Session (Virtual and In-person)

Starting with information gathered at the consultation session, you will receive a personalized questionnaire that will help me get to know you and your partner, your families, and your dreams of your new life together. I will also be learning more about your style and vision for the wedding.

As the day approaches, we will meet in person or virtually to answer any questions we may have and to review the flow of the day.

#### 3. Your Special Day, Time to Get Married!!

Today is your day and fully centers around your love story. Enjoy the day. I will be there for you and help you shine your best. My goal is to capture the best of your love story and help you enjoy your day.

**4. View and Order**

The big day has come and gone, you are back from your honeymoon and you are ready to view your special images. We will meet in person and you and your partner will select the images that best represent your special day. You will have a chance to see your images on a big screen and select what you would like to print for wall art, albums, gifts and more. Any images you select for print, and albums will also be available electronically for sharing on social media.

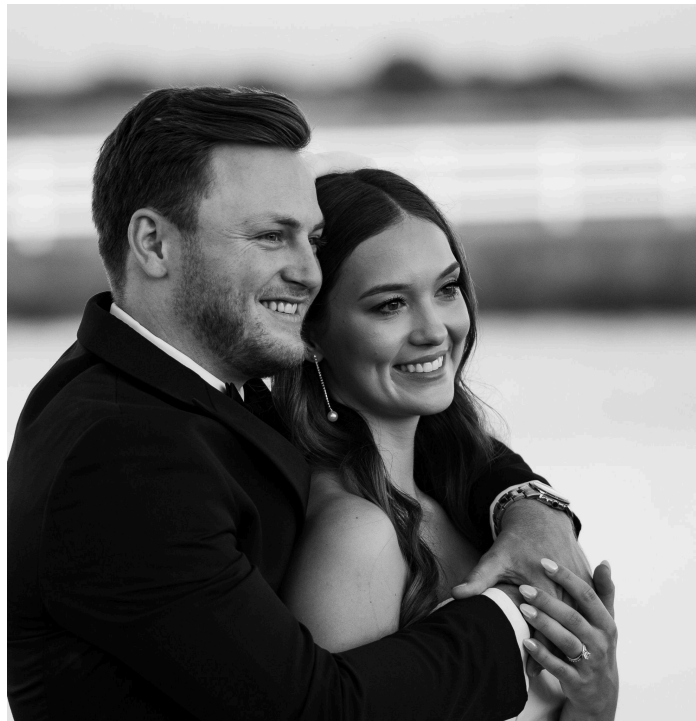

**5. Production**

Your work is done. I will meticulously edit and retouch your selected images, complete your albums/wall art and place your order with the labs. When your precious images arrive, we will schedule a time for them to be delivered to you at your home.

**Investment**

Wedding packages start at \$2,600 and are customized to fit your specific needs. We will go over all of the options during the in-person consultation and work together to find the perfect fit for your special day.

**Capturing your special day starting at \$2,600**

## **What does it mean to be a Client for Life?**

Our relationships, life's special moments, and rites of passage often fall by the wayside when it comes to meaningful lasting documentation. Many of us will spend more on coffee in a year than we will on preserving memories of events and people most precious to us. As a "Printographer", my passion is ensuring your story is captured on an annual basis for your enjoyment today, but also by your children's grandchildren and beyond. Client for Life is my way of ensuring that your story will be around for many generations to come. It is a partnership as we build a lasting relationship.

**NOTE:** Prices above are subject to change. Some locations may have additional fees. The prices do not include sales tax, studio rental fees, location entrance fees or commercial photography permits. Travel is included within a 30 mile radius of Wylie Texas. Additional travels may apply depending on location.
