

# WELCOME

Thank you for contacting us about your wedding. This packet is intended to try to answer any questions you have about the process of booking your wedding with Discount Wedding Videos.

Your wedding film is the main piece created from your wedding footage. Depending on the amount of coverage recorded at your wedding and package option, the film can be from 4-20 minutes long. This film is the best edit that we create and features detailed story-based video editing, audio design, color correction and industry standard file processing. It is presented in chronological order and, depending on your package, a recap of the entire event. We always shoot in HD, and we can shoot with multiple cameras so that every event is covered to its fullest.

The delivery of your Wedding Package is sent approximately on the month anniversary of your wedding day. The final package you receive will be shipped carefully and includes a flash drive of your videos. The videos are .mov files on the drive and are playable on any computer or USB-compatible device.
