

Foto Graphics by Sheryl E Thomas is a wedding and lifestyle photography company. We started our business in 2008 because we are passionate about photography and love what we do. We have two photographers and two videographers to help you capture the important details of your wedding day. We are not just photographers, we are storytellers: every photo we take tells a story in beautifully captured images. We focus not only on the grand moments but the small moments in-between. Whether it is a wedding, a family photo session or an event, our photographers are creative professionals who deliver both wonderfully photographed images and superior customer service.
