Wedding Pricing Guide

We have several wedding packages to suit both your needs and your budget. If the following are not exactly what you desire, we will do our best to design a custom package for you.

All wedding packages include complete coverage by two photographers to ensure that your special day is thoroughly documented. This allows us to be more flexible in shooting your wedding while covering more action at the same time. It also provides assurance in the event of stolen or damaged equipment or media. Each photographer also carries an extra camera for backup purposes in the event of a failure.

All orders are subject to sales tax. Prices as shown do not include sales tax. Prices as quoted are valid for 90 days from date of receipt.

Wedding and Parent Albums

We offer two different styles of albums that can be used as either a wedding album or a parent album:

- **Press-Printed Album:** This is a digitally designed, bookstore quality hard-cover book produced by a commercial four-color printing press. This choice of album is great for budget-minded couples who want an inexpensive wedding album or use for parent albums.
- **Flush Mounted Album:** This is a digitally designed, leather bound album with page layouts printed on high quality Kodak E-Surface paper which are flush mounted on rigid pages with durable rounded or square corners. This is the most expensive choice of album, but is also the most flexible as page layouts can be very dramatic and images can be layered.

Pricing for the first album of a given design includes non-recurring album design costs. Subsequent albums of the same design may be purchased at the additional album cost as long they are of the same style and the same ratio, i.e. original 10X10, subsequent albums 5X5 or 8X8. The same album design ordered for a different album style or different ratio will incur the first album cost again because the layouts must be recreated for the new album style or ratio.
