

## About Lightwater Video Productions:

Lightwater Video is a Winston-Salem based, multi-purpose video production company specializing in wedding video production. The owners, twin brothers; Phil and Nate Berry attended the UNC School of the Arts and have a cinematic visual style. When booking with them, you can expect to get one of the brothers to film your wedding. Their goal is to focus on the little things during the wedding day, the moment of grandma smiling, of the bride straightening the groom's tie before photos, or that crazy uncle making a fool of himself on the dance floor. The brothers are there to cover the big moments as well but sometimes the little things are the big things. Visit [www.LightwaterVideo.com](http://www.LightwaterVideo.com) to learn more.
