

I See The Light Photography

2016 Wedding Pricing Guide

Marriage is a wonderful gift and your ceremony is a great day of celebration and reverence, on which friends and family come together to recognize the sacred love shared between two people. It is truly a privilege and honor that I might be a consideration to commemorate this hallowed day in your lives.

A La Carte Wedding Photography

I See The Light Photography's unique A La Carte wedding pricing eliminates the hassle of choosing between packages that somebody else has lumped together. You choose what you want and only pay for the services you desire!

\$2000 Photographic coverage of your wedding day with two photographers plus a password protected online gallery. Unlike many photographers, we are going to photograph your blessed day from beginning to end; no need to choose between four hours or six hours of coverage! Award Winning photographer, Ryan Michaels, will capture lasting memories from the moment you start getting ready until the party is over. There will also be a second photographer, not just an assistant, to help document your special day. All images will then be stored on a password protected online gallery for you to enjoy and share. Our galleries are safe and secure and above all, a convenient way to allow family members to view and order prints. No need to hassle with collecting orders from friends and family!

I See The Light Photography

2016 Wedding Pricing Guide

Albums:

I See The Light Photography uses one of the greatest print labs in the country. We use flush-mount professional albums with a huge selection of customization possibilities.
