Anticipation

This is the time to relax before the big day! To prep for me, make sure all your ladies and gents are ready for their close ups. Have your jewelry, paperie, dress, shoes, owers...basically ANY- THING you want documented. I'll start with these while you guys hang out. During this time we'll capture:

- you hanging out with your people. -photograph all the details mentioned above.
- you getting dressed.
- A few candid portraits of you alone, and with any family/friends present.

Ceremony

You are about to marry your best friend!

We will make sure to capture as many angles as the church/venue will allow.

(Some churches have restrictions and we want to honor them as best we can)

If you are having anything special happen during the ceremony, or a particular aspect you want us aware of let us know!

Most of all, breathe, smile and hold onto that first kiss as long as you can :)

Portraits

Congratulations! You're MARRIED!!!

Now it's time to capture those photos you'll hang on your wall.

It's best if you let everyone know beforehand when and where they should be to expedite the process and you can get to the party!

The comprehensive list is on the next page...

Party!

We'll document you having the time of your lives!

Along with all the details you've so painstakingly put together.

Let's dance the night away!!

And, if you need a breather from it all, we'd love to take you outside for some awesome night portraits!

What's it like to work with you?

We try to be super organized so that we can be super laid back :) at might sound a little backwards but having a plan so we know how the day should go gives us the ability to plan for what could go wrong and move through it with little stress for you.

I ultimately want everyone to be relaxed and having fun!

I want you to know that if you email me I will respond as soon as humanely possible. I take all of your questions and concerns seriously and want you to know I'm here as a guiding hand

What portraits can I expect you to take?

This is portion is just a guide and suggestions if you need to make additions or subtractions please do! I try to make sure everything is set up so it takes as little time away from your day as we can. I strive to be ultra organized to take some of the stress o you!

*Note: these are the only formally "posed" shots, the style of TLP focuses on documenting your day as it unfolds. During prep I may ask you to step into natural light and turn off overheads, (so don't be alarmed!) You will get direction but not formally posed...besides these below, right there :)

Family: Obviously every family is di erent, this is just the most basic comprehensive list.

These can take anywhere from 20-45 minutes.
