### WEDDING OFFICIATING

MOST POPULAR

\$1200

Designing a Wedding Ceremony Just for You Takes Some Prep and Planning. Here are the steps to your perfect Ceremony that captures your Love Story:

1. Initial meeting - make sure we're both good to work together and for me to start to get to know your story.
2. Contract signed and deposit.
3. Questionnaire filled out by both partners, this is for basic info but also for me to start to get to know you both and your story.
4. In depth meeting, where I get to know you both, your stories and what your perfect ceremony looks like.
5. I send out a few emails questions to parents or a couple of people who are your most important influences in your lives.
6. I write and create a ceremony that incorporates what you're looking for and unique elements of your journey and story.
7. Final meeting to go over any last minute changes and finalizations of details.
8. If added, I attend your rehearsal to walk through what the day will look like.
9. Ceremony day!
10. I take care of sending in your marriage license and continue to be available if you need anything.
