[Let's Work Together]

INVESTMENT GUIDE

My couples believe their wedding day shouldn't revolve around posing for photos [just a few stunners]... Rather, the majority of their photos should revolve around their actual wedding day experience. [And I couldn't agree more.]

You're about to start planning one of the most exciting, personal, unforgettable things that happens in a lifetime. Let's make it worthwhile. We'll explore the type of energy you want to create and capture during our scheduled calls, and walk through your day-of priorities -- 100% custom to YOU.

Please note: I take a limited quantity of weddings and photo sessions each year so that I can fully invest equal excitement, care, and intention to each one.

Manifesto:

1. Look For The Light
2. Do Good. Be Good.
3. Present Over Perfection

INCLUDED IN EVERY SESSION

[2024]

[Let's Work Together]

"FACE TO FACE" CALLS

(FaceTime/Google Meets counts!) I can't imagine shooting anything without meeting first! For weddings, I like to meet multiple times (est. 3) to discuss everything from Timeline, Vision, Gallery Aesthetic, and overall expectations!

For other one-off shoots and projects, we still cover all these, just wrapped in one call.

TIMELINE DEVELOPMENT

Timeline development Whether you're working with a planner, coordinator, or tackling the day yourself, I love to work as a team to discover the best timeline -- organizing your day based on what you want to experience, not just the photos you want taken.

SECOND SHOOTER

Candidly, I will be the main lead, on point for your day. But I always bring along assistance and second shooters that act as in-person insurance and be an extra pair of eyes to capture every detail!
