Our team/style

LET'S WORK TOGETHER!

I have built an amazing team of professionally trained wedding photographers and videographers to deliver a high-quality product. While variation exists due to lighting, location, and client, we have created a consistent style so you can rest assured that every member of our team will deliver quality content.

There are companies out there who book weddings and outsource to random photographers/videographers. THIS IS NOT US! All of our team members go through our trainings and often start as second shooters. We will not send a photographer or videographer to your wedding that we do not have 100% confidence in.

We love the fresh look of trendy imagery, but also see the importance of keeping a timeless, classic look that you will love for years to come so our team combines the best of both in our style of photography and videography. The photos & videos on our website reflect this. We are excited to accommodate your special requests regarding style, please feel free to send us any specific editing or posing examples.

Why are we so affordable?

Our goal is to provide high-quality media at an affordable rate because everyone deserves to have beautiful wedding media. In this industry, there is quite a large markup on photo & video services. Unlike individual photographers/videographers, our overhead expenses are split between hundreds of weddings so we do not need as large of a markup on our services. Don't worry, just because our prices are more affordable does not mean you will sacrifice quality. If you were to book with our team members independently, you would pay significantly more. Our team members shoot weddings with us for less because we handle all of the marketing, booking, and editing. (All of the really time consuming aspects that photographers and videographers don't always love)! Our team members love filling up their calendars, and we love being able to offer you the best prices around :)
