## About the Photography Process and Marc Sadowski

I have a very candid approach to wedding photography. I stay back and capture the moments as they happen. And when it's time to do portraits, I try to make them as fun and as quick as possible. And then it's back to capturing the fun moments of your reception. It's that simple.

- I devote 100% to your wedding day.
- YOUR wedding is the ONLY wedding I photograph that day.
- Non-obtrusive - I don't use huge equipment with massive lights, and crazy equipment. It's photo journalistic photography at it's simplest and finest.

I do all of the photo editing. I do not outsource an outside service to handle my photography. I work on the photos from start to finish! Again, you deserve nothing less!

## FAQs

Here are the most common questions asked about my wedding photography services as well as my engagement and portrait photography. If your

questions are not answered, please contact me directly at 978.476.1593 or send me an email to SadowskiStudio@gmail.com

## GENERAL FAQs::

**Does my wedding need a second photographer?** That all depends. 90% of the weddings I photograph are solo. That being said, here are the key moments where a second photographer comes in handy.

1. **Getting Ready in Separate Locations:** If your wedding party is getting ready in two very different locations that are pretty far apart, then having a second photographer is important for maximum coverage
2. **Second set of eyes:** There are moments in the day where the bride and groom will head off for portraits. The second photographer can stay with the guests to cover cocktail hour, dancing and more.

**Are you insured?** Yes, I am insured. If your wedding reception hall needs proof of insurance, please let me know and I can send them the necessary documents directly to the coordinator's office.

**Where do you photograph?** I photograph primarily in the New England states. But I am available to travel further.

**Do you travel?** Yes! While I regularly photograph all over New England and I am available nationwide.

**Do you charge for travel?** If the wedding is far enough away from Haverhill MA (my home base), then I may charge for gas and/or the cost of a hotel room stay. Nothing more.

**Tell me something cool.** I am happy to say that over the course of my photography career, I did the following pop-culture weddings: Star Wars, Star Trek, Harry Potter, Ghostbusters, Marvel Themed, Pride and Prejudice (yes, that counts, Colin Firth rocks), and Game of Thrones... minus the red wedding.

## WEDDING PHOTOGRAPHY FAQs::

**Do you offer discounts?** I offer military discounts as well as discounts to teachers and those that service in local services (police, fire fighter, rescue, etc).

**What happens if you get struck by lightning?** If that happens then by comic book rules, I get sweet, super powers. But in the real world (or the DC cinematic universe) then that means something dreadful has happened to me. Fear not, I have photography colleagues that can jump in and save the day!

**Do you do Videography?** If you would like a photography/video package, please contact me. I have a team of videographers that I regularly work with.

## ELOPEMENT/HALF DAY PHOTOGRAPHY FAQs::

**Why do you charge so much for elopements, I only need you for a few hours?** Here's the thing, when you hire me, I give you 100% and want to make

your wedding day beautiful and memorable. It takes a lot of work to make your ceremony - whether it's a full wedding or a day with only a few people - timeless.

**I can get my sister to shoot it on the iPhone for free.** That's fine. If that's the quality you want, go for it. No one is stopping you. But do you want your family and friends working on your big day or enjoying it with you?

## **ENGAGEMENT / PORTRAIT FAQ::**

**What should we wear? What should we bring?** I try to keep the engagement sessions candid and fun. Dress however you want that best reflects who you are. If you want to bring props, then that's all good. We'll have fun.

**Can we bring our dog?** You can. However, if you have an excitable or very active dog, please take time before the engagement session to let some energy out. That way, they are not too hyper for photos.

**Can we bring our cat?** Sure, why not.

**Really?** Hey, if your cat will cooperate on a location, then I want to be the one to photograph it. Seriously, I've had weirder requests. I had a horse in a family portrait session that gave me the raspberry.

**Are you just fooling us?** Think about it this way, I created its own FAQ question and answer.

**Is there an animal that you won't photograph?** Lizards and fish. I don't trust them.

**Anything else we should know?** Look, here's the deal. I'm just impressed that you *actually* read this far down. Most people just flip to the price tag and then delete this PDF, then reach out to me asking for my pricing again like I'm holding something back.

So if you made it this far and mention it to me, I'm adding a free canvas print to your wedding package just for the hell of it. And not just some 8x10 little one. I'm talking 11x14.
